

Senior Research Analyst

The Pakistan Credit Rating Agency Limited [PACRA] · Punjab, Pakistan (On-site)

About the job

Description:

- Conduct in-depth research on industries, economic trends, and financial markets to support credit rating assessments.
 - Prepare high-quality sectoral reports, thematic research, and analytical studies on defined schedules.
 - Collaborate with internal teams to refine research methodologies and enhance data analytics capabilities.
 - Supervise and mentor junior analysts, ensuring consistency and accuracy in research deliverables.
- Requirements

- CFA Level 2 (at least) passed, MBA (Finance), ACCA, or CA-Inter (articles completed).
- 3-5 years of experience in financial research, economic analysis, or credit ratings.
- Strong financial analysis, valuation, and data interpretation capabilities.
- Advanced Excel, financial databases, research tools, and report writing.

What we expect from you

- Strong analytical skills to assess industry and macroeconomic trends.
- Deep understanding of financial markets, corporate financial performance, and economic indicators.
- Proficiency in report writing, financial analysis, and data visualization.
- Ability to manage multiple research projects while meeting strict deadlines.
- Excellent communication and presentation skills to deliver research insights effectively.
- Leadership skills to guide and mentor junior research analysts.
