PACRA is looking for a "Senior Research Analyst".

Job Description:

Conduct in-depth research on industries, economic trends, and financial markets to support credit rating assessments.

Prepare high-quality sectoral reports, thematic research, and analytical studies on defined schedules.

Analyze financial statements, macroeconomic indicators, and industry dynamics to assess risks and opportunities.

Develop financial models, forecasting tools, and data-driven insights for research reports.

Stay updated on regulatory changes, economic developments, and corporate financial performance.

Collaborate with internal teams to refine research methodologies and enhance data analytics capabilities.

Present key research findings to internal committees, clients, and external stakeholders.

Supervise and mentor junior analysts, ensuring consistency and accuracy in research deliverables.

Requirements:

1. 16 years of education (Economics, Finance, or Business) or any other relevant degree, CFA Level 2 (at least) passed, MBA (Finance), ACCA.

2. 3-5 years of experience in financial research, economic analysis, or credit ratings.

Location: Lahore
