

Investment Banking Analyst (Remote)

Taskify · APAC (Remote)

About the job

We're Hiring **Investment Banking Analyst (Remote)** | Earn Up To **\$15,000 Per Month**

Location: Remote | Open to candidates worldwide

About the Role

One of our clients is hiring **experienced Investment Services professionals** to collaborate with a leading AI research lab on an innovative financial intelligence project. In this role, you'll use your domain expertise to help design, test, and refine advanced AI systems that simulate real-world workflows across **investment banking, private equity, asset management, and equity research**.

Key Responsibilities

- Evaluate AI-generated investment outputs for quality, accuracy, and strategic alignment.
- Calibrate AI decision-making across valuation modeling, portfolio analysis, financial forecasting, and risk assessment.
- Review and improve model performance in financial and investment scenarios.
- Provide expert feedback on investment logic, methodology, and presentation quality.

Qualifications / Skills Required

- 2+ years of experience in **investment banking, private equity, asset management, equity research**, or related buy-side/sell-side roles.
- Bachelor's degree in **Finance, Economics, Business Administration**, or a related quantitative field.
- Advanced degrees (MBA) or certifications such as **CFA, CPA, or CAIA** are a plus.
- Strong proficiency in **financial modeling, valuation, portfolio construction, and risk-return analysis**.
- Solid understanding of investment processes, business performance metrics, and strategic frameworks.
- Excellent analytical, communication, and presentation skills with attention to detail and accuracy.
