

Corporate Financial Analyst – Kiewit Corporation – Omaha

As a Corporate Financial Analyst with Kiewit, you will be an integral part of a small team of finance professionals. You will conduct financial analysis and modeling related to corporate finance, mergers and acquisitions, investment analysis, tax investment analysis, operational analysis and project finance. You will also assist with industry/market research, evaluation of new market opportunities and the review of potential acquisition targets.

QUALIFICATIONS

Undergraduate degree in accounting, finance, or related field. If related field, thorough understanding of accounting & financial concepts. Progress toward obtaining an MBA or CFA designation is strongly preferred.

Prefer 2-4 years of experience in financial analysis, financial modeling, asset or business valuation, and general research.

Superior skills with Microsoft Excel, performing advanced functions, and other Microsoft Office products are required.

Ability and willingness to travel within the U.S., Canada, and Mexico.

Disciplined and self-motivated.

Excellent oral, written and presentation skills.

Ability to handle multiple projects simultaneously, employing effective time management and organizational skills.

Ability to work independently and contribute analytical support to larger, team-based projects.
