

Quant Awards

The Quantitative Finance Competition

Eligibility

Quant Awards are open to **university** students and interns in quantitative finance regardless of specialty. Applications are free. No CFA candidacy or membership is required.

Submission

Students must submit their **original** research focusing on the topic of **Quantitative Finance**. The report should concentrate on the importance and practical applications rather than technique. It can consist of an end of studies dissertation, internship report or work conducted specifically for the Quant Awards.

Format

The report must be written in **English**

- It should be between **5 and 7 pages long (excluding appendices)**
- The cover page should contain **only the title** but not the candidate or university name
- The report should be a PDF file named as follows: **Quant Awards - Candidate name - University name – (or Company Name if it is an adaptation of an internship report)**

AI Usage

The use of AI tools is limited to **structuring and editorial assistance only**. Any use of AI for research, analysis, or content generation is strictly prohibited. The organizing committee reserves the right to request code, datasets, or any supporting materials to ensure the integrity and fairness of the competition.

Registration and Deadlines

Candidates should register before **31 May using this [link](#)**. Registration after 31 May will be allowed on a case by case basis. Registered candidates must submit their reports before **31 August to quantawards@cfafrance.org**.

Judging

The judging panel consists of **several independent judges, including a Super Judge**.

Reports are judged **anonymously**. Each paper receives a grade from 1 to 10. Their mark is a **weighted average** of four criteria:

- Applicability and relevance (30%)
- Innovation (30%)
- Accuracy and completeness (30%)
- Presentation (10%)

Papers are afterwards normalized and the three papers with the highest score will make it to the final. The Super Judge will determine the order of the 3 winners. Decisions may not be appealed.

Benefits for students

- 3 cash prizes (1st €3000, 2nd €2000, 3rd €1000) + trip and housing for the award ceremony
- Hands-on experience applying quantitative methods to real investment problems
- Career acceleration through visibility with employers, judges, and sponsors
- Recognition and differentiation with a strong, credible signal on your CV

Award Ceremony

The Award Ceremony will take place before the following year's competition starts. It will be held in the country where the winner applied. All winners will be invited, and travel and housing costs covered (with a limit of €500 per person). All participants are welcome to attend the ceremony at their own costs.

About CFA Societies

CFA Societies are the local affiliates of CFA Institute, the global association of investment professionals that sets the standard for professional excellence and credentials. The organization is a champion for ethical behavior in investment markets and a respected source of knowledge in the global financial community. They work to create an environment where investors' interests come first, markets function at their best, and economies grow.

The Institute offers the [Chartered Financial Analyst® \(CFA\) Program](#), a globally recognized, graduate level curriculum that provides a strong foundation of real-world investment analysis and portfolio management skills.
