

22nd Annual Forecast Dinner

Partner with us to make a difference.

Our annual Forecast Dinner is our premier event held at the start of each year to bring together investors and investment professionals and foster an environment of camaraderie and education. This event has become one of the leading financial forecast events in the country, regularly hosting over 400 attendees. Each year we bring together investment industry experts from the fields of fixed-income, equity, and/or economics to discuss the current economic environment and how they see markets progressing for the upcoming year. We hope your firm will join us for this special occasion and support us at a level commensurate with your vision for our organization.

Your pledge of support will assist CFA Society Mississippi in our ongoing effort to provide high quality programming to members, candidates, and the upcoming generation of investment professionals. It will also identify your firm as one that understands the need to support the highest professional and ethical standards in the financial services industry by endorsing a professional investment organization such as the CFA Society Mississippi. Partnering with us positions your company in front of our constituents, providing exposure to and interaction with this targeted group of high-profile individuals. Our events, which are directly marketed to finance industry professionals from around Mississippi and Northern Louisiana, have a proven track record of providing great insight and generating interesting conversations, sure to entertain clients and colleagues, and provide invaluable networking opportunities with the region's most talented investment professionals.
