

[Enduring Planet](#) is a fintech lender supporting the transition to a low-carbon economy by investing non-dilutive capital into early-stage climate startups. We are building a platform that will offer climate entrepreneurs financing products throughout their journey: from inception to late-stage growth. We prioritize investments into underrepresented founders, diverse teams, and startups serving marginalized communities.

We are seeking an Analyst to join our team. The Analyst will be critical in supporting our market research, origination, and diligence/underwriting of transactions. We're specifically looking for a candidate based internationally who will work remotely. Priority will be given to underrepresented/diverse candidates.

Typical Responsibilities

- Diligence and underwriting of transactions (US-based companies, to start)
- Financial modeling
- Drafting of investment memos
- Supporting the executive team on other related projects as needed

Basic Qualifications

- Minimum of three years work experience in finance
- Relevant work experience including startup/SMB lending or underwriting
- Bachelor's Degree in Finance, Accounting, or related field
- Detailed knowledge of financial accounting, analysis and modeling
- Strong project management skills
- Strong oral and written communications skills
- CFA Level 1 or more is preferred
- Impact investing background preferred
- Past experience working in Climate Change or related fields preferred

Compensation at market levels, commensurate with experience. Reimbursement for health/dental/vision benefits available.

If you are interested in joining our team, please submit your application, including your resume and cover letter, by 14th April to ramsha@enduringplanet.com CC erin@enduringplanet.com with title of email "Investment Analyst".
