Link: <https://bit.ly/3ZvE1TL>

Job Description:

The Fund Manager is responsible for managing investment portfolios on behalf of clients, ensuring that the funds under management achieve their investment objectives. They will be responsible for conducting investment research, analyzing market trends, and making investment decisions based on their analysis. The Fund Manager will be expected to communicate regularly with clients, providing them with updates on the performance of their portfolios.

Responsibilities:

- Develop and implement investment strategies to achieve the investment objectives of the funds under management.
- Conduct investment research, analyze market trends, and make investment decisions based on their analysis.
- Monitor the performance of the funds under management and make changes to investment strategies as necessary.
- Communicate regularly with clients, providing them with updates on the performance of their portfolios.
- Collaborate with other investment professionals, such as analysts and traders, to ensure that the funds under management are invested in the most appropriate securities.
- Manage risk by monitoring the portfolios for potential risks and implementing risk management strategies to mitigate those risks.
- Develop and maintain relationships with clients, responding to their investment inquiries and providing them with guidance on investment decisions.
- Ensure compliance with all relevant laws and regulations.

Qualifications:

- Bachelor's degree in Finance, Economics, Accounting, or a related field. A master's degree is preferred.
- At least 5-7 years of experience as a fund manager or in a similar investment management role.
- Strong analytical and financial modeling skills, with the ability to analyze complex financial data and make informed investment decisions.
- Experience with portfolio management software and investment research tools.
- Excellent communication and interpersonal skills, with the ability to build relationships with clients and colleagues.
- Ability to work under pressure and manage multiple projects simultaneously.
- Strong attention to detail and organizational skills.
- In-depth knowledge of financial markets and investment strategies, as well as knowledge of financial and regulatory requirements.

- Professional certifications, such as Chartered Financial Analyst (CFA), Certified Financial Planner (CFP), or Chartered Alternative Investment Analyst (CAIA), are preferred.
