Job title: Senior Investment Analyst

Work Location: Fairways Commercial, DHA Phase 6, Lahore, Pakistan

Division/Department: Corporate Finance & Deal Advisory

Reports to: Manager Corporate Finance & Deal Advisory

Full-time

Part-time

Overview:

We are looking for an Investment Analyst to undertake financial modelling, market research and report writing on prospective investment opportunities. The successful candidate will study how an investment is likely to perform and how sustainable it is. You will participate in our sound portfolio-management strategy by providing support for our decision-making process.

Duties and Responsibilities:

- Preparing reports and presentations for senior management and clients
- Identifying market trends and providing analysis on market conditions and company's performance in to make
- Investment recommendations
- Conducting research on specific sectors or industries to identify opportunities for new business ventures or investments
- Reviewing and analyzing financial statements to identify potential risks or opportunities for investment opportunities
- Building complex/integrated financial models on Microsoft Excel
- Conducting interviews with industry experts to obtain information about new developments or changes in market conditions
- Presenting findings at meetings with clients and in written reports
- Providing advice to clients on how to improve their businesses based on findings from market research

Education and Skill Requirements:

- Undergraduate degree in Accounting and Finance and / or pursuing ACCA / CFA
- 2-3 years of work experience in a similar role
- Good verbal and written communication skills
- Good MS Office proficiency (Excel, Powerpoint and Word)
