

Financial Analyst

Company Description

Medicaids Pharma, established in 1968, is a leading pharmaceutical company dedicated to providing accessible and effective treatments worldwide. With a diverse portfolio of products, including prescription medications and over-the-counter treatments, we address a wide range of medical needs. Our values focus on care, innovation, responsibility, patient safety, and product efficacy. We are committed to sustainability, corporate social responsibility, and improving global health outcomes.

Role Description

This is a full-time on-site role for a Financial Analyst at Medicaids Pharma in Karāchi. The Financial Analyst will be responsible for tasks such as financial planning, analyzing financial statements, financial reporting, and finance-related activities to support the company's financial health and decision-making processes.

Qualifications

- Financial Planning and Finance skills
- Analytical Skills
- Financial Statements and Financial Reporting expertise
- Strong quantitative and qualitative analytical abilities
- Proficiency in financial modeling and forecasting
- Experience with financial software and tools
- Bachelor's degree in Finance, Accounting, Economics, or related field
- Relevant certifications (e.g., CFA, CPA) are a plus
