

Tekvaly is a diversified global consulting company that gives both offshore and onshore solutions to business enterprises. Our mission is to enable superior returns on clients' technology investments through best-in-class industry solutions, domain expertise, and global scale. We feel deeply connected to our customers, and therefore our success isn't just a matter of our bottom line, but a reflection of how our customers flourish, and how their communities thrive. We strive to understand our customers' individual needs so that we can develop products and services that enhance their livelihoods. Our customers are our partners, and when we rise, we rise together.

We're looking for an Investment Analyst responsible for providing accurate, complete and detailed investment analyses to our Equity investment team in UK in a timely manner to assist them in building focused, high-performing and well-structured portfolios. The analyses will focus on the financial and fundamental analysis of individual companies. You will analyze a listed company's annual reports, build a financial model, provide a detailed description of the business and competitive landscape and then provide an investment recommendation.

#### **Responsibilities:**

- Analyze company financial statements and fundamentals, including critical information and analysis required in the investment decision-making process.
- In depth analysis including companies across various sectors.
- Present verbal and written reviews of company research to the Fundamental Equity team.
- Actively participate in portfolio construction meetings.
- Develop tools to enhance the team's efficiency and processes
- Update and maintain financial models for researched companies in an accurate and timely manner..

#### **Requirements:**

- Undergraduate degree in finance/accounting/actuarial or graduate degree (e.g. MBA, MFin),
- Ideal candidates will have a CPA or CFA completed or in progress
- 1-3 years of progressive work experience in financial services/investments/or relevant industry
- Strong analytical skills to complete detailed fundamental analysis
- A strong understanding of financial statement analysis.
- Good understanding of business and economics to research target companies.
- Strong written and verbal communication skills to deliver reviews and recommendations.
- Sense of judgment and self-discipline to evaluate multiple opportunities and make appropriate investment decisions.
- Strong computer and analytical skills (particularly Excel), including financial modeling.

**Soft Skill We Like to See:**

- Collaboration
- Teamwork
- Communication
- Time management
- Leadership
- Organization
- Problem-solving
- Critical thinking
- Adaptability
- Conflict resolution

**Be A Part of Our Team:**

With a highly skilled and experienced technical workforce, we pride ourselves as a premier consulting company serving clients in diversified business verticals. We understand our customers and nurture passion when it comes to delivering end-to-end solutions. We believe in utilizing technology to make things simple and easy to use.

**Perks For Our Team Player:**

- Performance culture with the potential for quarterly bonuses and yearly salary increments.
- Paid Vacation and Holidays.
- Remote work or flexible schedules.
- Collaborative and healthy working environment.

**Apply To:**
