Please Join the CFMA New York City Chapter Roundtable Meeting

MULTI-EMPLOYER PENSION PLANS AND WITHDRAWAL LIABILITY

Withdrawal liability poses a major risk to companies that contribute to multi-employer pension plans. Even seemingly small corporate events have the potential to trigger outsized amounts of liability. This presentation will provide a background on multi-employer plans with a focus on withdrawal liability and discuss how to monitor the risks associated with participation in these plans. It will also discuss some real-life withdrawal liability horror stories that illustrate what can happen when these risks are not considered.

Learning Objectives:
1. Understand the background and history of multi-employer plans
2. Understand withdrawal liability and how it can be triggered
3. Become aware of corporate events that can have withdrawal liability implications, often arising in unexpected ways

Thursday, January 16, 2020
