Webinar: COVID-19: Stabilize, Recover, and Rebuild

Assessing Your Business:

Crisis Management: How to assess how to finance and operate your business to make it to recovery
Recovery: How to assess what to focus on and invest in as you get back to sustainability
Rebuilding: Understanding how to position yourselves for a more nimble form of future operations
Liquidity and Cash Management: Understanding what tools are out there for electronic movement of funds, and benefits /risks of each; and using leverage as a tool, while not overleveraging

We will also share industry trends and show what construction firms are doing well in or need to work on!
