Volunteer Spotlight

KYLE BEOUY

A recent graduate from The Ohio State University in Zoology & Global Public Health, Kyle has been volunteering at PCC for over the past year.

Kyle feels volunteering at PCC is an excellent way to be involved in the Columbus community and gain an understanding of the vulnerable health situations of our community. When asked about the things he enjoys most about volunteering at the clinic, it was all about the people.

Now having finished college, Kyle will start serving as an AmeriCorps VISTA Wellness Coordinator in Missouri. From there he hopes to attend medical school earning his MD-MPH. His focus he says, will hopefully be on the health disparities and being able to address the social side of medicine.

Best of luck Kyle and thanks for all you do!

ANNUAL CAMPAIGN

Dear Community Members:

I currently hold the role of Board of Trustees President for the Physicians CareConnection (PCC). PCC is conducting its first-ever fundraising campaign! Funds received during our 2015 campaign will be used to support the health care services provided and coordinated for people who are vulnerable (low income, uninsured, underinsured, underserved, documented/undocumented immigrants) in our community.

PCC used to be known as the Physicians Free Clinic. However, our focus has expanded beyond medical clinic services to include a Dental Clinic, and Eye Clinic and the specialized Colorectal Screening Initiative. Each of these programs are essential components to our overall effort to provide health care services for our most vulnerable populations.

We are calling on you, as a member of the community, to support our effort to provide the scope of service necessary to improve the health status of people who are vulnerable in our community. Your gift, regardless of its size, will join those of other like-minded contributors to assist us in fulfilling our mission.
