

**SAVE THE DATE**  
**"eMission Zero - Sustainable Manufacturing Facilities"**  
at Interface International, Scherpenzeel, on February 20th-21st, 2014

December 2013

## „eMission Zero - Sustainable Manufacturing Facilities”

We are delighted to inform you about a forthcoming Chapter Event in the Netherlands at Interface that is supported by our Central Europe Chapter and the Benelux Chapter.

### Workshop

On February 21, 2014 CoreNet Global will focus on a subject that has great attention amongst our members: „eMission Zero - Sustainable Manufacturing Facilities ". We therefore thought that this topic will be an excellent opportunity for you to obtain further insights in this very specific and heavily debated topic.

Beside visiting Interface Zero Emission production plant, our presentations and discussions will focus on a variety of sustainability matters in Corporate Real Estate.

### Networking Dinner @ Hotel and Restaurant Goudfazant

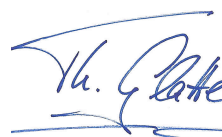

**For members of CoreNet Global only** (first come first served basis), we are organizing an exclusive networking dinner on Thursday, February 20, 2014 at the "Hotel and Restaurant Goudfazant" in Aambeeldstraat 10 H, 1021 KB Amsterdam. This get together has been recognised as one of the best opportunities to strengthen existing CoreNet networks.

The Event is free of charge.

Further information will follow in January – please save the date.
