For those curious about what the state-level incentives are for data centers in Minnesota: Data centers that meet the following criteria will receive sales tax rebates on qualifying equipment and software, as well as sales tax exemption on electric power for the facility for 20 years.

1. Companies that build new data or network operation centers of at least 25,000 square feet and invest $30 million in the first four years
2. Companies that refurbish a data or network operations center of at least 25,000 square feet and invest $50 million in the first 2 years
