Dear Members & Friends,

Happy New Year! I hope you are feeling rested after the holidays and ready for an impactful year ahead.

The Chapter has started as it means to go on in 2026, with three premier events already open for registration.

Our **Annual Social** moves to **Brass Monkey Bluewaters** this year for a night of bowling, dining, and games. This event is historically popular; with only a handful of spaces remaining, we encourage you to book immediately to avoid disappointment.

For our corporate occupiers, **Google** is hosting our first **End-User Roundtable** at their Dubai Internet City headquarters. This session has seen incredible demand, and with only **two spaces left**, this is the final call for members and non-members to join the conversation on CRE's internal branding and influence.

We are also proud to announce our first 2026 event in the Kingdom of Saudi Arabia. On **3 February**, our Platinum sponsor, **Diriyah Company**, will host a deep dive into the **Future of Riyadh's Workspace**. This highly anticipated forum features an expert panel from **ROSHN**, **Diriyah Company**, **CBRE**, **EY**, and **The Executive Centre**, alongside an exclusive overview of the **Diriyah Master Plan**.

Make plans now to join us for these events and the full slate of activities we have planned for the year!

A Sustainable Tech Workplace for the Future in Redmond

Since Microsoft established its headquarters in Redmond, Washington, in 1986, the company's campus has grown from four buildings to more than 100. The East Campus Modernization Project is the latest addition: occupying 72 acres (29 ha) of the 520-acre (210 ha) site, it replaces several older structures with ones designed to meet the demands of the modern hybrid workplace - and embody the company's commitment to both employee well-being and environmental stewardship.
