

SUBMITTAL GUIDELINES

There will be (4) 50 minute breakout sessions that will immediately follow the keynote speaker. These sessions are open to all event attendees. Each presentation will be offered twice.

The intent of the sessions is to present current and/or foreseeable future CRE issues and how they are being addressed with Sm@rt Solutions. To maintain the integrity of our educational program, presenters are advised to avoid using the session as a platform for the promotion of the products and services. Presentations that highlight projects or clients that have had success with innovative technology solutions are most popular.
