

## June 2023 CoreNet Update

### Did You Know?

#### CoreNet Global North American Summit Registration Open

The Summit will be taking place this fall in Denver, CO from October 28-30. Today's issues have many interdependent elements that change in unpredictable ways and lead to unforeseen outcomes. While it can be tempting to break a challenge into various components to "solve," this assumes that one has greater control over the problem at hand. It can also narrow your view and obscure your perspective. "Zooming out" can help leaders shine a light on assumptions that may not be visible from the trenches. An elevated vantage point can enable a view of larger patterns and inter-dependencies leading to adaptation, re-calibration, and new solutions. "Zooming out" can equip corporate real estate professionals with the knowledge and skills needed to emerge as thoughtful leaders who may not have a single answer but know how to ask the right questions. Early Bird Registration closes Monday, June 12.
