

## Who We Are...

The UK Chapter's Young Leaders Group focuses on the educational and networking needs of real estate professionals who are 35 years of age and under. Our mission is to attract and retain future leaders by creating activities designed to encourage young professionals to participate and become actively engaged in the corporate real estate industry.

We will have four CoreNet Young Leader led events a year ranging from breakfast discussions to mentoring events. We want to develop a community where Young Leaders have the opportunity to network with the peers, as well as senior professionals in the industry.

The CoreNet Young Leader committee are an enthusiastic, energetic bunch. If you have any questions, or would like to get more involved in the Young Leader group, please contact one of the team.
