

Predictions and Resolutions 2012

Greek debt, the Euro crisis, the Arab spring uprisings, phone hacking, the end of Gaddafi and Berlusconi's many blunders. It's fair to say it's been quite a big year as far as political and economic news goes. Our own industry has also seen its fair share of casualties but also, thankfully, stories of great prosperity

But what does 2012 have in store?

Come and join us for our annual New Year Predictions and Resolutions breakfast forum and hear what our expert panel has to say. Perhaps you have your own predictions? Bring them along to throw into the mix at the St. Botolph's Building on the 18th January 2012.

We will be starting proceedings with a brief AGM.

We look forward to seeing you!

Alex Thorpe, CoreNet Global UK Programmes Lead
