

# Excellence in Design Park Planning

## Olympus Park *City of Encinitas*

*The City of Encinitas, in collaboration with RRM Design Group developed a 3-acre park through a robust public outreach process. Utilizing every square-inch of the small and hilly terrain, the park consists of a passive “zen-like” experience at the upper park with a multi-use lawn, yoga/meditation space, gazebo, and plants chosen by the San Diego Botanical Garden. The lower park is action-packed with hill-side slides, 2-story climbing structure, tire swing, zip-line, sports court, dog park, and a pump track/skate feature. A meandering accessible path weaves the upper and lower parks through grass meadows and biofiltration basins. A park for everyone.*

Celebrating Excellence  
CPRS Awards Program 2021
