

# Case Study: Mill Creek

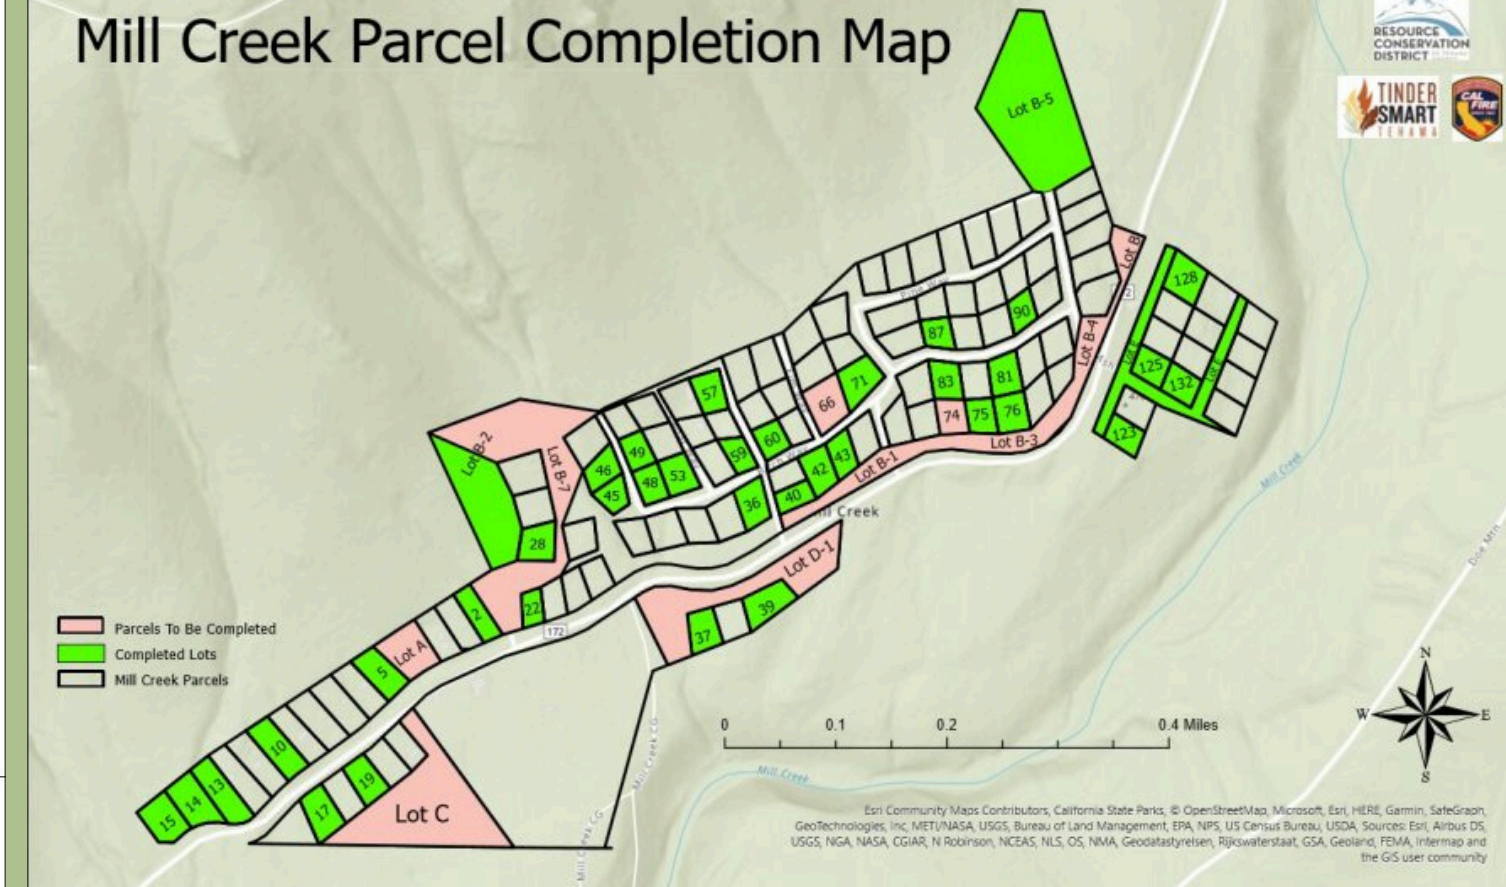

## Mastication

## Handwork and thinning

## D-Space

- All work was within 1 mile of Park Fire footprint
- Mastication area was where CALFIRE started their backburn
- PR Officer noted how our defensible space work was crucial in efforts to save the community (not 1 cabin was lost)
- Collins Pines' mastication area was used as staging platform for CALFIRE and USFS prior to Park Fire
