

FIRE PROTECTION DISTRICTS

Districts safeguard our communities

California Fire Protection Districts provide **quality emergency response, fire prevention, public education**, and many other services that keep families safe

There are **346 Fire Protection Districts** in California

Through **community outreach and education**, Fire Protection Districts teach **thousands of children and adults** how to keep their neighbors and families safe and healthy

Fire Protection Districts are **operated by trained emergency responders** who provide public safety services for both urban and rural communities throughout the state

In addition to **thousands of professional full-time firefighters**, Fire Protection Districts train approximately 2,500 volunteer firefighters who provide over 60,000 hours of service annually
