

RESOURCE CONSERVATION DISTRICTS

Districts foster a healthy environment

Resource Conservation Districts provide communities with technical assistance, tools, and programs to aid in **stewarding land and water resources**

There are nearly **100 Resource Conservation Districts** committed to leading and promoting conservation efforts throughout California

Since the 1930s, Resource Conservation Districts have **empowered communities to conserve**, protect, recycle, and restore natural resources

Resource Conservation Districts **foster a state of harmony** between communities and the environment

Resource Conservation Districts have preserved **thousands of acres**
