Current/Previous Experience as a Board Member for Organization(s) other than CSI:

Program Chair, AIA Indianapolis, Secretary, Footlite Musicals, Indianapolis,

President – Steeplechase HOA – Indianapolis

Candidate Statement:

I have been the current Director from the Great Lakes Region for less than two years. During my time on the Board, I along with the rest of the Board have looked at CSI's problems and have determined steps to improve CSI. Our work is continuing, and I would welcome the challenge to serve CSI for next three years to make CSI even better. While on the Board, I have been an active participant in two CSI Institute Committees: Audit and Awards. On the Audit Committee, I have been a member for many years reviewing financial records of CSI. I was honored to emcee the Awards portion of last year's Honors and Awards Ceremony in Long Beach, CA. as a member of the Awards Committee. I believe in CSI and all that it can be!

I started my leadership as Program Chair for the Indianapolis Chapter CSI. Over the years, I have served most positions in the Chapter and have now returned as Program Chair. I also continue to be a member of the Chapter's Certification Committee. I continue to serve on the Indianapolis Education Foundation currently as Secretary. Chapter Awards include Member of the Year and Fran Schroeder Awards.

At the Region Level, I started as Treasurer and later President. I have served as Certification Chair and have continued to add new Power Point Presentations to the Legacy Training Series which provides instructions for incoming Region and Chapter Officers on line as Program Chair. Currently, I serve as the Editor of the GLR Newsletter. Region Awards include Continuous Service, Outstanding Service, and the Region's Highest Award - the Bud Reed Memorial Award.

At the Institute Level, I am the current Institute Director from the Great Lakes Region CSI as well as a member of the Audit and Awards Committees. Institute Awards include the Hans Meier Award for Promotion of Certification Programs (Co-Winner) and CSI's second highest award - Fellowship.

The various awards I have been honored to receive at the Chapter, Region, and Institute Levels are an indicator how much I believe in CSI and how CSI has recognized that effort. That is why I am pursuing this re-election to help better CSI.

What leadership skills do you possess that you could apply as a member of CSI's Board?

As a leader in many roles, I believe that I can look at issue, discuss that issue, promote a solution, and be responsible for the outcome. I have always worked to develop solutions for the common good and have never tried to force my views on to others. The current governance states that after discussion and maybe

disagreement on any issue, the result of any decision from the Board is that we speak with one voice beyond the Board Room.

What skills and experience make you uniquely qualified for the position for which you are a candidate?

Because of my knowledge of board procedure, working with current members of the Board, and my leadership abilities, I believe I am best suited to continue addressing the many challenges and opportunities still facing CSI.

What do you think should be changed about CSI or what changes would you make? What shouldn't change about CSI?

I believe that CSI should be strongly promoting itself in Social Media and other media who we are and how joining this organization will help not only that person's career but the Construction Industry as a whole. Continuing to advance our CSI Communities as a place of great discussion that help our members and others alike. Working with our Chief CSI Education Officer, Tracy Petrillo, to develop new Education Programs that will educate students and young professionals in building technology.

CSI should always stand for its core principles of a diversified membership base, continuous development of standards and formats, education, certification to improve the project delivery processes, and creation of practice tools to assist users through the facility life cycle. Additionally, the fact that we have a great time every time we get together in the name of CSI!

What do you see as critical to CSI's future success?

CSI's future success is tied to promoting our certification programs, educational offerings, and the "CSI Experience" of gaining knowledge while having fun doing so. Selling these points successfully will lead to increased membership in CSI and for a stronger organization.

I would appreciate your vote for this important position!
