Advertising Rate Information

District Energy Magazine

Your Business Blueprint for Success!

districtenergy.org

Why Advertise with IDEA?

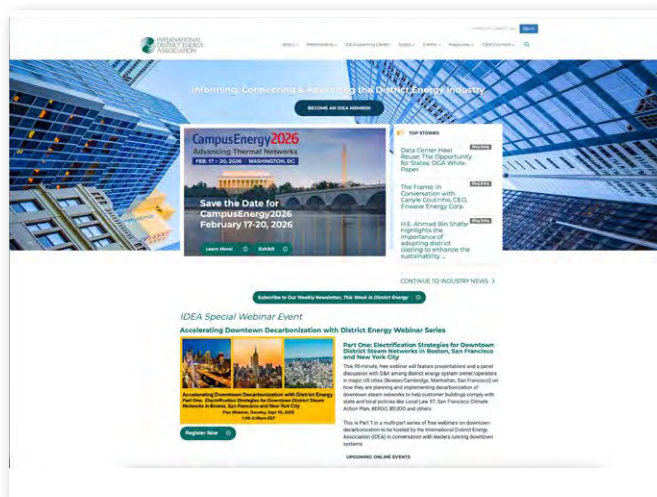

Advertising with IDEA is your blueprint for success!

The success of your marketing plan relies on reaching your target audience. IDEA's publications and website offer the best opportunities for your company to present your products and services to the KEY DECISION MAKERS in the district energy industry!

Advertising in IDEA publications ensures that your sales message will have direct exposure to district energy system owners, developers, engineers, operators and physical plant managers who specify and make the final decisions on products and services.

Every year, IDEA member organizations invest billions of dollars in equipment, services and energy supplies. From campus energy renewals to new district cooling systems, IDEA members are setting a record pace for investment across the globe. Make sure your message reaches key decision makers through a trusted and reliable source – the International District Energy Association.

IDEA's *District Energy* magazine is highly valued by the membership and is a frequent reference source for our members throughout the year. Additionally, our publication is used continually in promotional activities conducted by IDEA members to recruit new customers and attract new members to the association, to inform policy makers and to reach out to other segments of the energy industry. These activities provide your company with additional exposure to other energy professionals and potential customers.

Take a close look at the magazine editorial calendar to decide which issues may be of greatest interest to your organization. Or schedule a full year's worth of advertising in the magazine to ensure your company full visibility throughout the industry. (Plus, you'll receive substantial savings from discounted rates offered through frequency advertising).

Contact Tanya Kozel at (508) 366-9339 ext. 115 or at tanya.idea@districtenergy.org for more details. Or fill out and return the attached advertising space reservation form to her today.

About IDEA

The International District Energy Association (IDEA)

was founded in the United States in 1909 as the National District Heating Association. Since its inception, the association has been forward-looking to emerging trends and industry changes in support of its members. In 1968, the NDHA became “International” in recognition of its growing membership around the globe, now totaling more than 25 countries. In 1984, “Cooling” was added due to anticipated growth and expansion of district chilled water systems in cities and on campuses. In 1994, recognizing the economic efficiency advantages and the emergence of combined heat and power (CHP) as an environmentally superior solution, the association’s name was changed to International District Energy Association. In 2012, the Canadian District Energy Association (CDEA) was integrated into IDEA, expanding membership across North America.

IDEA provides a forum for energy professionals to exchange information on a regular and timely basis. Its technical forums and membership represent the definitive source for information and innovation on efficient methods of producing, distributing, marketing and optimizing central thermal systems. To facilitate robust information exchange, IDEA produces two major conferences and trade shows each year that draw members from multiple continents. Additional conferences and workshops are presented regularly. IDEA publishes a quarterly magazine, **District Energy** (print and digital versions); a resource-rich website, www.districtenergy.org, with numerous features designed to facilitate information exchange to a growing global audience. IDEA has a robust social media presence across multiple platforms that leverage visibility along with technical expertise from a series of high quality conferences, workshops and webinars.

IDEA Members

Currently, IDEA has nearly 3000 members affiliated with utilities, municipalities, colleges and universities, government agencies, hospitals and health care campuses, research and industrial facilities, military bases, airports and other physical plant systems engaged in supplying thermal energy in the form of steam, hot water and chilled water for heating, cooling and process applications. Many IDEA members operate cogeneration or combined heat and power systems that simultaneously produce electricity and thermal energy. IDEA represents manufacturers of equipment and materials for central plants and distribution networks as well as engineers, consultants and professionals from the banking, finance, legal and policy communities who are involved in the design, development, operation, optimization and financing of district energy systems.

IDEA's magazine is the essential source of information for professionals involved in every aspect of district energy.

It is also widely circulated among the customers and employees of member utilities. District Energy focuses on technical innovations and successful industry case studies. It covers the features and benefits of urban and institutional district energy systems, as well as the marketing, legal and financial issues involved in developing district energy. The magazine provides up-to-date information on trends, case studies and new product developments, keeping readers abreast of industry activities around the globe.

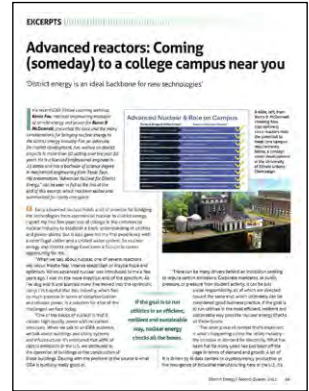

Hard copy circulation: 3,050+
Digital circulation: 10,000+

(Please review the preliminary editorial schedule on page 5. Rates and requirements are on pages 6 and 7.)

Important Information for 2026 Advertising Placements

All advertisements to be placed in District Energy must be paid before the publication goes to press.

Any advertisements not paid by the ad due date may be pulled from the publication. Additional production costs incurred will be billed to advertiser at prevailing rates after publication is printed. There is no commission allowed.

Departments/Columns

These items are featured regularly in **District Energy** magazine.

- **Chair's Message:** Timely commentary from IDEA's chair.
- **President's Message:** Current insight from IDEA's president on industry trends and association activities.
- **In Case You Missed It:** Industry news items.
- **International Forum Column:** Insights and innovations from leading district energy systems around the world.
- **Calendar of Events:** Industry meetings and events.
- **Dates to Remember:** Heads-up reminders to help you meet IDEA deadlines.
- **Meet Our Advertisers:** Detailed index for direct access to these leading suppliers.
- **Guest Columns:** Trends, opinions and insights from leading energy and environmental voices from around the globe.
- **Public Policy:** Commentary and analysis of legislation and rule-making as it applies to the district energy industry.
- **Excerpt:** Verbatim details from IDEA webinars and prize applications.

2026 Editorial Calendar

Current as of Aug. 23, 2025. Issue contents are subject to change.

1st Quarter (Winter issue)

- Princeton’s Poe Pardee Field geo-exchange project
- Building-conversion considerations when implementing a district LTHW system
- University of Michigan geo-exchange at scale: A vision for a carbon-free campus
- University of Wisconsin decarbonization considerations
- NYU leverages district energy to optimize building performance
- Maximizing established capital plans to minimize carbon at UMass-Amherst

Plus:

- Columns from IDEA’s Chair, President & CEO and others
- In Case You Missed It (industry news and notices from around the world)
- Additional material TBA

Advertising space deadline:
Nov. 14, 2025

Advertising materials deadline:
Dec. 12, 2025

Publication date:
Jan. 31, 2026

2nd Quarter (Spring Issue)

- Ottawa bids adieu to gas and steam, and hello to heat pumps and hot water
- A broad new district energy expansion in Edmonton
- Exceeding decarbonization goals at Island Health with revitalized thermal energy systems
- A U.S. airport modernization case study from Pittsburg International Airport
- Modernizing downtown St. Louis with electrified chilled water and P3 finance
- The latest in cycle-isolation technology

Plus:

- In Case You Missed It (industry news and notices from around the world)
- Columns from IDEA’s Chair, President & CEO and others
- Additional material TBA

Advertising space deadline:
Feb. 13, 2026

Advertising materials deadline:
March 13, 2026

Publication date:
April 30, 2026

3rd Quarter (Summer Issue)

- The all-electric UCSF Mission Bay District Hot & Chilled Water Plant
- Thermal energy networks in urban settings, with a focus on NYC neighborhoods
- The Recycled Energy Development at Eastman Business Park in Rochester
- Saving water with advanced cooling treatment optimization in San Diego
- Achieving reliable, accurate data flow
- Efficiency gains at Texas Tech

Plus:

- Columns from IDEA’s Chair, President & CEO and others
- In Case You Missed It (industry news and notices from around the world)
- Additional material TBA

Advertising space deadline:
May 15, 2026

Advertising materials deadline:
June 12, 2026

Publication date:
July 30, 2026

4th Quarter (Fall Issue)

- New energy infrastructure analytics platform powered by big data and AI
- Advanced document-digitization at TECO
- Efficient and resilient central plants: an assessment guide for owners
- Optimization of district heating grids with closely controlled temperature zones
- Staying ahead of the emissions data curve
- Unlocking value through hybrid networked geothermal systems: A utility-scale optimization approach

Plus:

- Columns from IDEA’s Chair, President & CEO and others
- In Case You Missed It (industry news and notices from around the world)
- Additional material TBA

Advertising space deadline:
Aug. 18, 2026

Advertising materials deadline:
Sept. 15, 2026

Publication date:
Oct. 31, 2026

Advertising Submittal Information

Preferred File Formats

District Energy magazine accepts digital ads prepared on the following platforms and in the following file formats: Macintosh, Windows and Linux platforms.

.pdf - Acrobat .indd - InDesign

Please save all Illustrator documents as Press Quality PDF files.

Preferred format for file submittal is a Press Quality PDF with 1/8 inch bleed and crop marks.

Preparing Application Files for Submittal

Collect all files used including fonts, photos and images either embedded or linked. Zip or stuff all collected files in one archive.

For All Submittals

- **PDFs.** If you are not familiar with how to prepare a PDF file using the requirements suitable for offset printing, please send the native application files instead.
- **Files Analyzed.** All files will be analyzed upon submittal. If errors are found, you will be asked to correct the problems and resubmit the file(s) – or you can ask us to attempt to fix the files for a fee.
- **CMYK a Must.** All files should be saved as CMYK. Spot colors will be automatically converted to CMYK. No RGB files will be accepted.
- **No Microsoft Files.** No Microsoft Word, PowerPoint or Excel files, native or embedded, will be accepted.
- **Ad Size.** Check your ad size! Make sure it is the correct size, specified on page 6.
If the ad is not sized correctly, IDEA cannot be responsible for errors in format or content.

Advertorial

An advertorial is a paid content written advertisement, produced by an advertiser for placement in an issue. All advertorials must be clearly marked as “Paid Advertisement.” The advertorial cannot use the same font or grid as the magazine editorial sections so there is clear differentiation between advertorial and editorial content. The advertorial also cannot use IDEA’s logo or the *District Energy* magazine banner.

Submitting Your Ad

You may email your files to Tanya Kozel or use Wetransfer.com or Hightail.com. When emailing files, please “zip” or “stuff” your files. This not only compresses them, but also protects them during upload and email transfer. **Be sure to clearly label your files to include your company name and issue for which the ad is being provided.**

Thank you for advertising in *District Energy* magazine.

To produce the highest quality publication that reflects well on your advertising commitment, IDEA prints using computer-to-plate technology. As a result, it is very important that submitted advertising art files be properly formatted. **Improperly prepared files increase the chance of production errors, and IDEA cannot take responsibility for these errors.**

If you have questions, please contact Tanya Kozel,

301-400 words*	\$300
Use of logo in ad	\$100

Nonmember

Up to 100 words	\$300
101-200 words	\$350
201-300 words	\$400
301-400 words*	\$450
Use of logo in ad	\$150

* Maximum of 400 words.

Rates are subject to change.

Employment opportunity ads will run on IDEA'S website for 90 days.

Requirements

Text for classified ads should be emailed as a Word file to Tanya Kozel at tanya.idea@districtenergy.org with the file format identified. All logos may be supplied as camera-ready art or as an electronic file prepared in one of the following formats: TIFF, EPS or JPG. No other artwork may be used in classified advertising.

Please review the terms, liabilities, cancellation policy, space reservations, mailing and shipping instructions in the section below. You must adhere to and agree to follow these terms as an advertiser on our website.

General Advertising Information

Terms

All advertisements in IDEA publications are to be pre-paid by the publication press deadline. (Please refer to the publication and closing dates for each publication to reference press deadline.) An invoice will be sent to advertiser upon receipt of advertising space reservation form or insertion order. Invoice will indicate when payment is due. Failure to submit re-payment for advertisement(s) in publication(s) will result in the advertisement(s) being pulled from that publication(s). All 4X advertisers who pre-pay their entire balances due for the year will be entitled to a 10% discount off the total advertising fees.

Advertising rates for all IDEA publications are noncommissionable.

Liability

Publisher reserves the right to refuse advertising. Advertisers and advertising agencies assume liability for all content of advertisement printed, and also assume responsibility for any resulting claims made against the publisher. Publisher also reserves the right to hold advertiser and/or its agency jointly liable for money due and payable to the publisher.

Cancellation

Contracts or insertions that need to be canceled by advertisers/agencies must be submitted in writing **two weeks before the materials deadline. Cancellations received after this time will not be accepted.**

Space Reservations

To reserve advertising space or ask related advertising questions, please contact:

Tanya Kozel
Director of Sales

Rate-protected (Companies that reserve space on or before November 1, 2025 will be rate-protected and receive 2025 rates for their 2026 ad schedule. Contracts received after November 1, 2025 will be subject to 2026 rates.)

PAYMENT

- Once approved, you will be invoiced. Payments can be made by:
- Check – payable to International District Energy Association in US Dollars and drawn on a US bank.
 - Wire Transfer/ACH – contact Cheryl Jacques cheryl.idea@districtenergy.org for instructions.
 - Credit Card (American Express, VISA, Mastercard, Discover) – a secure link will be sent with the invoice.

Note: Unless we receive an insertion order from you or your agency, this will serve as the official insertion order. By signing this form you (and/or your agency) are agreeing to follow all advertising regulations listed in the IDEA 2026 Publication Rate Information. All advertisements must be paid on or before the payment deadline. (Upon receipt of your advertising space reservation form and/or insertion order, an invoice will be mailed to you with a payment due date. Failure to submit payment on this date will result in your advertisement being pulled from that publication.) After the publication has been printed, you will receive a copy of the publication with tear sheets of your advertisement.
