The Sky’s the Limit When You Join IDEA

Join IDEA: The authoritative voice of the district energy industry since 1909.
About IDEA

For 110 years, the International District Energy Association (IDEA) has served as the information and activity hub for the district energy community. Through our commitment to connecting professionals from all facets of the industry, stimulating conversation and helping to advance new technologies and ideas around the world, IDEA remains on the front lines of increasing energy efficiency and resiliency and reducing emissions to improve the global environment.

Our mission? To foster the success of its more than 2400 members from 25 countries as leaders in providing reliable, economical, efficient and environmentally sound district energy services. By helping them champion energy efficiency, resiliency and environmental quality through district heating, district cooling, cogeneration (also known as combined heat and power or CHP) and microgrids, together we are charting a course for a brighter future for communities they serve all over the world.

IDEA delivers unprecedented opportunities to learn through peer-reviewed technical presentations at annual conferences, workshops, and webinars. Through our Product and Services Directory and trade shows, IDEA helps you discover the latest in technology and services. Through our online chat room IDEA Connect, Membership Directory and networking at conferences, members can share their expertise and work together to bring about positive change.

Be a part of the conversation about the future of district energy. Join IDEA today.

“I’ve been attending many IDEA conferences since I presented at the campus conference in Reno in 2010, and have found them to be the best place for learning about the latest developments in district energy from fellow engineers and campus operations staff.”
— Joshua Morejohn, University of California, Davis
At IDEA Member Benefits: Learn. Discover. Collaborate.

No matter what role you play in the district energy ecosystem, you’ll enjoy a wealth of personal and professional benefits when you join IDEA.

It is our mission to provide you with educational content and opportunities to connect that you can’t get anywhere else. Become a member today and engage with like-minded district energy champions like you who are eager to learn from industry experts, discover emerging technologies, and collaborate with colleagues all over the world.

In a little more than a decade, membership with IDEA has tripled as emerging voices from the energy industry join the conversation. Like them, you can enjoy the following membership benefits.

Learn

Conferences, Workshops and Webinars
Since 1909, IDEA has presented annual conferences that feature peer-reviewed technical presentations and interactive sessions that serve as a roadmap for the future of district energy. Each year we shatter attendance records as more new people come to the table to join the discussion. As a member, you will receive substantial discounts to attend.

District Energy Magazine
Members receive printed and digital subscriptions of District Energy magazine. Published three times a year, District Energy is one of the industry’s leading publications for news, technical information and insight into the latest topics and issues affecting the district energy and combined heat and power industry.

Content @ www.districtenergy.org
IDEA offers an unprecedented amount of content on its website including links to industry and member news, conference proceedings, publications, case studies, and industry reports. In addition, you can find or post RFP/RFQ in our Business Opportunities section or and find or post your next job in the Employment Opportunities section. IDEA delivers a weekly newsletter highlighting important news you need to know, curated from our web site.

Discover

IDEA Exhibit Hall
An integral part of our Annual and CampusEnergy conferences, the always sold-out IDEA Exhibit Hall features all the top manufacturers and suppliers in the industry. If your system is looking for a new partner – or if you’re a manufacturer/supplier looking for one – this is the place to be.

Products and Services Directory
We like to think of this as our virtual, open year-round exhibit hall. The IDEA Products and Services Directory is an innovative, online searchable database that connects you with manufacturers, suppliers and service providers who can partner with you on your next project. Consistently one of the most visited pages on our website, only member companies are eligible to be listed in the directory. So, if you’re a manufacturer/supplier/service provider looking to find your next customer, you need to be here.

Collaborate

IDEA Membership Directory
IDEA keeps members connected through this unique online communication portal. The IDEA Membership Directory allows you to search for members by multiple criteria including keyword, company name, location and more. Found who you’re looking for? Send them a message directly through the portal and start a dialogue between fellow IDEA members.

IDEA Connect
IDEA’s online chat room, IDEA Connect gives members the opportunity to post a conversation topic or question for other IDEA members to comment on. Whether you’re crowd-sourcing solutions, gathering opinions, or just looking to discuss a hot topic, IDEA Connect gets you in touch with the right audience to help. If you don’t have a question, hop in and see if you can lend your expertise to an existing conversation.

Network at Conferences
One thing you’ll notice at IDEA conferences is the unparalleled camaraderie in this unique community. Through social events, networking lunches, forums, our conference app and more, IDEA conferences give you the opportunity to meet face-to-face with colleagues from all facets of the industry.
Who are IDEA Members?

IDEA is honored to serve a diverse group of constituents from all over the world, including:

- Energy professionals with utilities, district energy companies and energy service companies
- Owners, operators and facility managers of central plants at colleges, universities, hospitals, airports, military installations and industrial parks
- Manufacturers and suppliers of equipment and services
- Consulting engineers, attorneys and investment bankers
- Staff and personnel from government agencies and nongovernment organizations; system developers and integrators
- Energy officials, regulators, city planners and sustainability directors
- Anyone interested in district energy, combined heat and power, distributed generation or microgrids

“This organization is very relevant to what I do. Through IDEA, I have found numerous major suppliers and business approaches that I have incorporated in my plant.” — Juan M. Ontiveros, Associate Vice President, Utilities and Energy Management, Univ. of Texas at Austin
Membership Categories

Utility
Owns, operates or is planning a public or private district energy system. Each operating utility system of a parent (holding company with multiple systems) is considered a utility. Annual dues are based on previous calendar year combined annual thermal sales (steam, hot water & chilled water) at the operating utility unit level. Does not include electricity sales.

Annual dues are based on previous calendar year combined annual thermal sales (steam, hot water & chilled water) at the operating utility unit level. Does not include electricity sales.

*Additional members may be added at $225 per individual. **Holding Company (UI): Option for 3 or more operating units under corporate governance. UI annual dues are capped at $25,000 for up to 25 operating units.

Physical Plant/Campus Energy System $1,125
Owns a central district energy plant at a public or private college, university, institution, research facility, healthcare facility or hospital, airport or military base. Does not include private contractor operators of campus energy systems (see ESCO) Entitled to 4 listed representatives.

Manufacturer/Supplier $3,035
Physically produces or sells equipment or supplies and materials for the industry, includes manufacturer’s representatives. Entitled to 6 listed representatives.

Non-Profit Organizations/Government Agencies $500
Non-profit associations or government agencies engaged in advocacy or education in North America or beyond. Government applies to federal, state, provincial, municipal, or local governments or government agencies involved in evaluation, regulation, planning and/or policy related to district energy/CHP. Does not include government-owned or operated district energy systems. Entitled to 2 listed representatives.

Service Providers to the Industry (Not Manufacturers or Equipment Suppliers)
Consultants, Consulting Engineering Firms, Attorneys, Investment Banks, Financial Institutions, Manufacturer’s Representatives, etc. Category is based on annual turnover or gross revenue of parent organization for previous calendar/fiscal year.

Additional Representative $225 per individual
Up to six (6) additional listed members @ $225 per person; seven (7) and more at $125 per person.

Students $50
Strictly limited to full-time students enrolled at an accredited institution.

“We’re a small company and we’ve been growing over the years, and IDEA has been part of our growth...the exposure we’ve received coming to the conferences and meeting with the members of IDEA has helped us grow.”
— Terence Waldron, President, Waldron Engineering
Please fill out this Membership Application completely. Please print legibly or type. Once your application has been received and reviewed, we will respond as to whether your membership was approved or not. Once approved, payment will be taken and you will receive your paid receipt promptly. Shortly thereafter, you will receive a form to enroll all eligible listed members in your organization.
