

# Affiliate Members

## **Affiliate Municipal Members**

Municipal utility members receive the following benefits:

- ❑ Discounted registration fees for all ECNE events and courses
- ❑ All company employees are eligible to participate in ECNE's Committees & Working Groups
- ❑ Access to all ECNE reports, surveys, and standards
- ❑ Access to ECNE's online forums, webinars, and remote meetings

Municipal membership dues are based upon MWH sales and invoiced annually.

## **Affiliate Investor Owned Utility (IOU) Members**

IOUs with affiliate or partial membership have elected to join one or more ECNE committees and pay dues per committee. Access to reports and reduced registration fees are based upon committee membership.

*For example:* if your company is a member of ECNE's Safety & Operations Committee, your employees would receive reduced rates at ECNE's Safety Awareness Forum, an event sponsored by that committee. Power Utility Institute (PUI) tuition is reduced by a lower degree.
