Eastern Nursing Research Society · 31st Annual Scientific Sessions
Welcome to Providence and ENRS’ 31st Annual Scientific Sessions!

This year’s theme is Transforming the Future of Nursing Research: Imagination, Innovation, and Engagement. The conference begins on Wednesday, April 3 with Dr. Mary Sullivan’s keynote address on ‘Meeting the Challenge to Shape the Future’. On Thursday, April 4, Dr. Zane Robinson Wolf will moderate the plenary panel ‘Disruptive Innovation’ with a diverse panel of experts: Dr. Amy Berman, Dr. Billy Caceres, Dr. Allyssa Harris, and Dr. Therese S. Richmond. On Friday, April 5, Dr. Pamela R. Jeffries will ‘Reimagine Nursing Research and Innovations Needed’ at our closing session.

Other highlights of the program include: student poster presentations, including the work of BS, MS, DNP, and Early PhD students; scientific series of peer reviewed podium, poster and symposium presentations; opportunities for consultation with funding representatives and six stimulating workshops on cutting-edge research topics. On Thursday evening, everyone is welcome to the offsite Reception & Tour of the new Rhode Island Nursing Education Center. This brand-new state of the art center combines leading technology with a rigorous experiential learning curriculum.

I also encourage you to take part in the Research Interest Group (RIG) sessions on Thursday. Our RIGs provide a fantastic opportunity to get involved and engage with colleagues with shared research interests. The seventeen RIGs provide a forum to make important contributions to the growth of nursing science in the northeast region. Several of our RIGs have created posters that will be on display in the Ballroom Foyer throughout the conference – stop by and take a look!

This year, we are excited to celebrate our distinguished research award winners on Wednesday, April 3 at ENRS All Member Meeting from 5:30– 6:45 PM. We encourage you to attend this very important meeting during which we will update attendees on the activities of ENRS and introduce the newly elected officers and newly elected or appointed committee members. There is an open microphone during the All Member Meeting and we welcome open conversation from all conference attendees! And be sure to attend the Closing Keynote & Doctoral Student Paper and Poster Awards Ceremony where we will recognize the outstanding achievements of our student members.

It takes a committed and engaged team to plan for and execute a successful conference. Our sincere appreciation to the Conference Planning Committee, chaired by ENRS President-Elect Dr. Ann Marie Mauro, our abstract reviewers, abstract slotters, session moderators/supporters, and our new management team at Association & Conference Group for their tireless commitment to ensure the success of the 31st ENRS conference.

Finally, I extend my gratitude for the generous financial support of our sustaining, strategic, supporting and collaborative partners, conference sponsors, and exhibitors — their contributions are critical to delivering a meeting of this caliber. I encourage you to visit the Pre-function area to view the many products, services, and opportunities for education.

Best wishes for a rewarding, educational, and memorable time at the 31st Annual Scientific Sessions. For those who are coming to their first ENRS conference, thank you and come back to join our growing group of those passionate in creating knowledge and using that knowledge in to improve health of individuals, families, and communities.

Sincerely,

Victoria Vaughan Dickson, PhD, CRNP, FAHA, FHFSA, FAAN

The Objectives for the ENRS 31st Annual Scientific Sessions are:

1. Examine innovative programs of research in which nursing perspectives have made significant contributions in engaging individuals, families and communities to advance their quality of care.
2. Propose innovative strategies for dissemination and translation of nursing science into practice.
3. Explore theoretical and methodological perspectives to transform nursing science, including dissemination and translation of nursing science into practice.

Conference Highlights:
• Opening Keynote Speaker: ENRS Past President, Mary Sullivan, PhD, RN, FAAN, Professor, University of Rhode Island, College of Nursing
• Thursday Plenary Panel Session Speakers:
  - Moderator: Zane Robinson Wolf, PhD, RN, FAAN, Dean Emerita and Professor of Nursing, La Salle University School of Nursing and Health Sciences
  - Panelists: Amy Berman, RN, LHD, FAAN, Senior Program Officer, The John A. Hartford Foundation, Billy Caceres, PhD, RN, Post-Doctoral Fellow, Columbia University School of Nursing, Allyssa Harris, PhD, RN, WHNP-BC, Associate Professor, Boston College, Connell School of Nursing, Therese Richmond, PhD, CRNP, FAAN, Professor, University of Pennsylvania, School of Nursing
• Six Workshop Sessions
• Awards for peer-reviewed paper and poster presentations by doctoral students
• Awards for DNP & Early PhD (Pre-Dissertation) Doctoral Student Poster Presentations
• Awards for BS & MS Student Poster Presentations
• Offsite Reception & Tour of the new Rhode Island Nursing Education Center which combines leading technology with a rigorous experiential learning curriculum
• Closing Keynote Speaker: Pamela R. Jeffries, PhD, RN, FAAN, ANEF, FSSH, Dean and Professor, George Washington University, School of Nursing

Acknowledgement of In-Kind Commercial Support
No in-kind commercial support was received for this educational activity.

Satisfactory Completion
Learners must complete an evaluation form to receive a certificate of completion. Your chosen sessions must be attended in their entirety. Partial credit of individual sessions is not available. If you are seeking seeking education credit for a specialty not listed below, it is your responsibility to contact your licensing/certification board to determine course eligibility for your licensing/certification requirement.

In support of improving patient care, this activity has been planned and implemented by Amedco LLC and Eastern Nursing Research Society. Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation Statement – Amedco LLC designates this live activity for a maximum of 17.75 contact hours for nurses. Learners should claim only the credit commensurate with the extent of their participation in the activity.

Objectives - After attending this program you should be able to:
1. Examine innovative programs of research in which nursing perspectives have made significant contributions in engaging individuals, families and communities to advance their quality of care.
2. Propose innovative strategies for dissemination and translation of nursing science into practice.
3. Explore theoretical and methodological perspectives to transform nursing science, including dissemination and translation of nursing science into practice.

The Distinguished Contributions to Nursing Research Award is given annually in recognition of sustained and outstanding contributions to nursing research by a Senior Investigator. The Awards Committee is proud to honor Ann Kurth, PhD, CNM, MPH, FAAN, Yale University School of Nursing, with the 2019 Distinguished Contributions to Nursing Research Award.

The Suzanne Feetham Nurse Scientist Family Research Award is given annually in recognition of outstanding contributions by a Junior Investigator (earned doctorate in last 7 years with a developing program of family research and scholarship) OR Senior investigator (has a well-established program of family research and scholarship). The Awards Committee is proud to honor Dena Schulman-Green, PhD, Yale University School of Nursing, with the 2019 Suzanne Feetham Nurse Scientist Family Research Award.

The Rising Star Research Award recognizes a Junior Investigator that has shown promise in establishing a program of health and/or nursing research. The Awards Committee is proud to honor Sara F. Jacoby, PhD, MPH, MSN, University of Pennsylvania School of Nursing, with the 2019 Rising Star Research Award.

The ENRS/Council for the Advancement of Nursing Science Dissertation Award is given annually to a doctoral candidate enrolled in a program of nursing that awards a research doctoral degree requiring a dissertation. The Awards Committee is proud to honor Liza Behrens, MSN, RN, CCRC, Penn State University College of Nursing, with 2019 ENRS/Council for the Advancement of Nursing Science Dissertation Award.

The ENRS/Nursing Research Authorship Award recognizes an ENRS member who disseminated research findings, or important theoretical, or methodological advances in the official ENRS Journal, Nursing Research, within the previous year (2018). The Awards Committee is proud to honor Nancy M. H. Pontes, PhD, RN, FNP-BC, FNAP, Rutgers University School of Nursing – Camden, with the 2019 ENRS/Nursing Research Authorship Award.

The Evidence-Based Practice Award is given to an individual or a nurse led group using research-based evidence to make a practice change that results in demonstrated improvement in outcomes for the patient and family, staff, community, or organization. The Evidence-Based Practice Award is designed to encourage the use of best practices to improve the safety and quality of patient care or the improvement of patient care systems. The Awards Committee is proud to honor Karen Giuliano, PhD, RN, MBA, FAAN, Northeastern University School of Nursing, with the 2019 Evidence-Based Practice Award.
In the last 10 years, the nursing profession has made considerable efforts to support academic progression to meet the future health care needs of the nation. These efforts have been undertaken in the midst of a faculty shortage, an aging faculty, and tight academic budgets. Although there continue to be projected shortages, we have succeeded in increasing the number of RNs, NPs and DNs. But PhD program enrollment has declined since 2014, though we have more candidates from underrepresented groups. As we look beyond ENRS’ 30 strong years and growing membership, we will be challenged to have well prepared PhD nurse scientists for academic, research and clinical endeavors. Let’s take a look at the future of nursing science in the northeast region by highlighting innovative studies underway this year.

**Presenter:** Mary C. Sullivan, PhD, RN, FAAN, Professor, University of Rhode Island and ENRS Past President

**Workshop 1:** Academic Practice Partnerships as a Model for Nursing Science  
Meeting Room 556

The 2016 American Association of Colleges of Nursing report, “Advancing Healthcare Transformation: A New Era for Academic Nursing,” highlighted the need to further integrate nursing research and scholarship with the practice environment. Pursuant to this goal, our school of nursing partnered with local hospitals and medical centers to hire a cadre of jointly appointed nurse scientists with the ultimate goal of advancing translational nursing research and improving patient care and outcomes. In this session, we will discuss the evolution of our academic-practice partnership program with special emphasis on the conceptual model, partnership with hospital leadership and stakeholders, and evaluation of the program’s successes and challenges.

**Moderator:** Elaine Larson, PhD, RN, FAAN, Columbia University School of Nursing
Panelists:

- Irene Bick, PhD, MBA, RN, Columbia University School of Nursing
- Eileen Carter, PhD, RN, Columbia University School of Nursing, New York-Presbyterian Hospital
- Kenrick Cato, PhD, RN, Columbia University School of Nursing, New York-Presbyterian Hospital
- Bevin Cohen, PhD, MS, MPH, RN, Columbia University School of Nursing, Memorial Sloan Kettering Cancer Center
- Amanda Hessels, PhD, MPH, RN, CIC, CPHQ, FAPIC, Columbia University School of Nursing, Hackensack University Medical Center
- Reynaldo Rivera, DNP, RN, NEA-BC, FAAN, New York-Presbyterian Hospital
- Carolyn Sun, PhD, RN, ANP-BC, Columbia University School of Nursing, New York-Presbyterian Hospital

Workshop 2: Establishing a Collaborative Research Alliance: Promoting Nursing Research as a Community

Meeting Room 551

A Regional Nursing Research Alliance is a group of collaborating hospitals, universities, and health care organizations creating a research network to support nurses, nursing students, and organizations in conducting and promoting evidenced-based practice, nursing research, nursing research utilization, and quality improvement activities. Presenters will provide a summary of the innovation, creation, outcomes, and 10-year sustainability of a local research alliance in a community void of a large academic research facility.

Speakers:

- Debbie J. Rahn EdD, MSN, RN, Reading Hospital
- Debra Stavarski, PhD, RN, Reading Hospital

Workshop 3: The United Nations Sustainable Development Goals: Transforming the Future of Nursing

Meeting Room 552A

An overview and scholarly dialogue regarding the United Nations (UN) 2030 Sustainable Development Agenda and implications for the future of nursing. This workshop is in alignment with multiple organizational initiatives related to the Sustainable Development Goals (SDGs) by Sigma, International Council of Nurses, American Association of Colleges of Nursing, and a call to action by the American Academy of Nursing.

Speakers:

- William E. Rosa, MS, AGPCND-BC, ACHPN, AHN-BC, CCRN, CMC, University of Pennsylvania School of Nursing
- Allison P. Squires, FAAN, PHD, RN, NYU Rory Meyers College of Nursing
- Rachel B. Breman, PHD, RN, University of Maryland School of Nursing

Workshop 4: Innovative Approaches for Advancing Pain and Symptom Self-Management Research and Patient Outcomes

Meeting Room 552B

This workshop will provide a broad overview of symptom and self-management theory and how omic-based methods can be used to elucidate the underlying mechanisms of persistent symptoms and targets for tailoring self-management interventions. Methods for developing user-centered technology for delivery of interventions and data collection will be explained.

Speakers:

- Kyounghae Kim, PhD, RN, NP-C, University of Connecticut School of Nursing
- Angela Starkweather, PhD, RN, ANCP-BC, CNRN, FAAN, University of Connecticut School of Nursing
- Xiaomei Cong, PhD, RN, University of Connecticut School of Nursing
- Wanli Xu, PhD, RN, University of Connecticut School of Nursing
- Ruth Lucas, PhD, RN, University of Connecticut School of Nursing
- Beth Russell, PhD, University of Connecticut School of Nursing
**Workshop 5: Funding Opportunities: The Future of Nursing Research**  
*Meeting Room 555*

This session will provide an overview of funding opportunities in a panel format made up of representatives from a variety of funding agencies. Attendees will be able to discuss issues and questions associated with funding, along with current challenges, training opportunities, and future funding priorities.

**Moderator:** Gail D’Eramo Melkus, EdD, C-NP, FAAN, Florence and William Downs Professor in Nursing Research and Associate Dean for Research, NYU Rory Meyers College of Nursing

**Panelists:**
- Rebecca Henry PHD, BSN, RN, HIV/AIDS Program Director, National Institute of Nursing Research
- Jeri L. Miller, PhD, MS, MSc, Acting Deputy Director, Division of Extramural Science Programs (DESP)
- Chief, Office of End-of-Life and Palliative Care Research (OEPCR) and NINR Center’s Program, National Institute of Nursing Research
- Sung Sug (Sarah) Yoon, RN, PhD, Program Director, Division of Extramural Science Programs, National Institute of Nursing Research
- Lisa Stewart, MA, Public and Patient Engagement Team, Patient-Centered Outcomes Research Institute

**Workshop 6: Publishing: Disseminating Cutting-Edge Research**  
*Meeting Room 557*

Attending this session will offer participants the opportunity to converse with selected editors and learn about publication priorities, guidelines for successful publishing, and finding the appropriate journal for manuscripts.

**Moderator:** Veronica D. Feeg, PhD, RN, FAAN, Associate Dean and Director, PhD Program in Nursing, Molloy College, The Barbara H. Hagan School of Nursing

Reimagine Nursing Research and Innovations Needed

This presentation will highlight an approach to reimagine nursing research as it is today. Changes are occurring where we need to adapt, particularly in funding areas, complexity, and evolution of needs and opportunities in order to contribute to the science. Transdisciplinary research will be delineated, and its benefits and opportunities will be discussed. Different exemplars of how transdisciplinary research is being done will be provided along with the challenges of this evolution. As we reimagine nursing research, we also need to resurrect or build upon existing research areas to meet the needs of today’s educational, research, and regulatory environments.
