

DISRUPT YOUR TALENT STRATEGY—THERE'S A HIDDEN WORKFORCE READY WITH MASSIVE POTENTIAL!

THE POLK CORRECTIONAL INSTITUTION

Facility Tour

IMPACT THROUGH INDUSTRY

You will get to see workers producing products and demonstrating the skills they have acquired. Inmates receive real-world training in nearly 40 job training programs, including manufacturing-related. When released from incarceration, they are MUCH less likely to commit a new offense than those not participating in the program.

For some CTE classes they will be able to see students completing projects and meeting standards for certifications.
