

## Representative Clay Yarborough

District 12

Clay Yarborough grew up in District 12, is a product of local public schools, and graduated from UNF with a bachelor's degree in Business Administration. He worked during college as a truck loader at UPS and for the past 10 years has worked in the company's Human Resources Department. A highlight of Clay's career is that he has personally interviewed and hired over 1,500 people into jobs in Jacksonville.

Clay loves our city and served eight years on the Jacksonville City Council, his final year as President of the 19-member body. After serving at the local level, he pursued a seat in the State Legislature, was elected, and currently serves in the Florida House representing Jacksonville's Southside and Fort Caroline areas. His priorities include a focus on fiscal responsibility, economic growth and development (including for our port), good jobs for Jacksonville residents, and proactive transportation solutions.
