OUTSTANDING CONTRIBUTIONS IN GEOINFORMATICS AWARD

Congratulations to this year’s Outstanding Contributions in Geoinformatics Award recipient, Dr. Stephen Richard of the US Geoscience Information Network and Lamont-Doherty Earth Observatory. Dr. Richard is an internationally-known geoinformatician who has developed and used software to automate the process of geoscience data capture, management and dissimilation. As a pioneer in the joint field of geoscience and computer science, Steve’s work has inspired and has been applied in various national and international efforts of geoscience data standardization and interoperability.
