

Quaternary Geologist and Geomorphologist

NEWSLETTER OF THE QUATERNARY GEOLOGY AND GEOMORPHOLOGY DIVISION

December 1976

MACKIN GRANT

The deadline for applications for the annual Mackin Grant has been moved from October to January 15. Announcement of the winner will be made soon thereafter and funds made available prior to the summer field season. The amount of the grant will not be less than \$200.

Application forms may be obtained from the Division Secretary, Don J. Easterbrook, Department of Geology, Western Washington State College, Bellingham, Washington, 98225. Information required includes a resume, statement of proposed research, and a letter of reference from the thesis advisor. Applications will be evaluated by the Division Management Board.

KIRK BRYAN AWARD

Nominations for the 1977 Bryan Award "to the author or authors of a published paper of distinction advancing the science of geomorphology or some related field, as Pleistocene Geology," may be sent to the Division Secretary until January 1. All nominated papers must have been published within the past five years. A supporting statement should accompany all nominations and copies of papers from difficult-to-obtain journals would be appreciated.

Any dues-paying member of the Division may nominate a paper (or papers) which meet the requirement outlined above. Evaluation of nominated papers and selection of the winner is made by the QG&G Panel during the winter and the award is presented at the annual luncheon at the national GSA meeting.

SEATTLE MEETING

Next year's GSA meeting will be held in Seattle where the Division plans to sponsor two 1/2-day symposia on "The Last Glaciation" and "Tephrachronology". In addition, there will be three 1/2-day technical sessions and several field trips of interest to geomorphologists and Quaternary geologists. A one-day trip is planned to examine evidence for Pleistocene chronology and genesis of glacial deposits in the Puget Lowland. A two-day post-meeting excursion will look at the Spokane (Bretz) catastrophic flooding of the Columbia Plateau Scablands and will include classic examples of drumlins, eskers, outwash terraces, kames and moraines of the Okanogan lobe of the Cordilleran Ice Sheet.

ELECTIONS

Officers and members of the Division Panel for 1976-77 were elected by the membership.

Chairman: William C. Bradley
First Vice Chairman: Arthur L. Bloom
Second Vice Chairman: William B. Bull
Secretary: Don J. Easterbrook

New Panel members (1976-78): John Andrews
Victor M. Baker
Marie Morisawa

Returning Panel members (1975-77): Peter W. Birkeland
Ernest H. Muller
Stephen C. Porter

Bylaw change: Nomination for Panel members by the Division membership prior to balloting.

For: 222
Against: 3

Nominations for Panel Members (deadline January 15, 1977)

Clip out and return this ballot to: Don J. Easterbrook
Department of Geology
Western Washington State College
Bellingham, WA 98225

All voting affiliates of the Divison are eligible except officers and present or retiring panel members (see above).

(1) _____ (2) _____ (3) _____

(The six names receiving the highest number of votes will appear on the annual ballot.)

OFFICERS OF THE DIVISION
