

Cover sheet for **Seth and Carol Stein Early Career Award in Geophysics and Geodynamics**, given in recognition of significant contributions to geology through the application of geophysics and geodynamics by a young scientist of outstanding ability.

1. Name of nominee & email address:

2. Deadline for nomination for this submission (month/day/year):

3. Nominee must be no more than 35 years old or no more than 6 years beyond receiving a Ph.D. (or equivalent) at the deadline for the award nominations the year the application is under consideration.

Birthdate or Ph.D. Year:

4. Is the nominee a current GSA Division of Geophysics & Geodynamics Division member in good standing?

5. Nominees shall not be under investigation by any court, regulatory agency, employer, or other public or private entity for professional misconduct of the type covered in [GSA's Code of Ethics and Professional Conduct](#); nor shall nominees have been found to have engaged in such misconduct by any entity. As far as you know, is the nominee a GSA member in good standing? Yes or No.

6. There should be a minimum of two and a maximum of three supporting nomination letters. At least one of supporting nominators must be a member of GSA.

a) Name & Email of Nominator:

Is the Nominator a current member of the Division of Geophysics & Geodynamics of GSA?

b) Name & Email of Supporting nominator:

Is this person a current member of GSA?

c) Name & Email of Supporting nominator:

Is this person a current member of GSA?

Please email the nomination to the division chair of Geophysics and Geodynamics, preferably as a single document: this cover sheet, primary nomination letter, other nomination letters, and nominee's vita.
