

REDUCE READMISSIONS.

ENHANCE QUALITY.

INTERACT™ eCurriculum

Online tools to implement the INTERACT Quality Improvement Program

“The goal of INTERACT eCurriculum is to make INTERACT easier to use through state-of-the-art online education and training through Medline University so that nursing home administration and staff can successfully reduce avoidable hospital readmissions and improve resident quality of care.”

Joseph G. Ouslander, MD, Creator of INTERACT

“We immediately saw a significant decrease in rehospitalizations. Within weeks of implementing INTERACT, our 30-day readmission rate fell from about 30.5% to 10.6%.”

Casey King, LNHA, Nursing Home Administrator

“Medline offered us a state-of-the-art eCurriculum program so all of our staff could become proficient and implement the INTERACT tools. A series of modules helped staff become knowledgeable in implementing the INTERACT steps, and successfully reduce unnecessary rehospitalizations.”

Sister Margaret Edward Costello, Director of Clinical Services, The Carmelite System

REDUCE UNNECESSARY HOSPITALIZATIONS AND READMISSIONS

INTERACT® (Interventions to Reduce Acute Care Transfers) quality improvement program targets three key strategies to reduce potentially avoidable hospitalizations:

INTERACT eCurriculum was developed in partnership with Joseph G. Ouslander, MD, at Florida Atlantic University. This unique training program includes evidence-based and expert-recommended interventions designed for everyday practice in long-term care facilities.

With the INTERACT eCurriculum, your staff will have all the training and resources needed to implement a proven quality improvement program shown to reduce hospital readmissions by up to 24%.¹

COMPREHENSIVE ONLINE EDUCATION

INTERACT eCurriculum state-of-the-art online education covers every aspect of the INTERACT quality improvement program from the perspective of every role involved, including medical directors, administrators, physicians, RNs, NPs, PAs, social workers, LPNs, CNAs, rehabilitation staff, dietary housekeeping and family members.

INTERACT eCurriculum helps you leverage the following attributes of the INTERACT Quality Improvement Program:

- » **Decision Support Tools** such as defined care paths to guide management during changes in condition
- » **Quality Improvement Tools** for logging, reviewing and calculating transfer rates, and performing root cause analyses
- » **Communication Tools** to help improve communication among your staff and with hospitals and physicians
- » **Advanced Care Planning Tools** to encourage planning on a regular basis

medlineuniversity.com

PROGRAM MODULES

- » 11 total modules
- » Basic overview module plus 10 in-depth modules with interactive training on all 37 INTERACT tools
- » Targeted syllabus for specific job titles

STAFF ENGAGEMENT

- » To ensure staff have gained adequate knowledge from each module, post-tests are administered
- » Certificate of Completion for each module staff complete
- » CE credits available

ECURRICULUM OVERVIEW

CHAMPION AND CO-CHAMPIONS

- » Preview the eCurriculum
- » Access to analytics and metrics on staff compliance

DEDICATED SUPPORT

- » Support throughout the entire training process
- » Develop a customized implementation plan together
- » Regular check-ins to address any questions

FACILITY CERTIFICATE OF COMPLETION

- » Issued to facilities that complete all assigned courses in the eCurriculum education
- » Marketing for acute care partners
- » Proof of PIP for state surveyors
