## Temporary Housing for Academics & Scholars

SabbaticalHomes.com is **not just for sabbaticals**. Members at all stages of their academic careers use the international housing service. Since 2000, the SabbaticalHomes team has been dedicated to helping scholars and thinkers find and offer mostly **furnished, turnkey temporary housing** for short, medium and longer stays.

Female founder Nadege Conger created the website to help academics, writers, doctors, artists and friends have access to a **shared platform to find homes for rent and exchange** and tenants for their homes. By making the housing challenge easier, our community is able to focus more on their work and passions. And maybe relax and recharge at the same time!
