HEALTHY HAPPENS

when exceptional
care is provided
in the comfort
of home.

Now, more than ever, patients want to receive care in the safety and comfort of their home.

At Hackensack Meridian *Health*, we are leading the way with the region's most comprehensive continuum of home health services. We are pioneering new technologies and were one of the first in the nation to provide a Hospital From Home service that has admitted over 1,000 patients.

As New Jersey's most comprehensive health care network, we take the worry and stress out of receiving care at home by coordinating services and resources to make things safe and easy for the residents and communities we serve.

We are leading the way in health care innovation, and advancing the home being the center of care today, tomorrow and beyond. Home is truly where Healthy Happens every day.

About Home Care & Hospice In *New Jersey*

Home care and hospice encompass a broad range of health care and supportive services provided to people in their place of residence —such as a private home, assisted living, or other community-based setting.

Services are tailored to the individual’s needs and may be **short-term (for recovery)** or **longer-term (for ongoing support)**, depending on the type of agency and the patient’s goals of care.

Skilled and Clinical Services

- Professional nursing (RN and LPN)
- Certified Home Health Aide (CHHA) services
- Physical therapy
- Occupational therapy
- Speech-language therapy
- Medical social services and counseling
- Case management services

Specialized, High-Technology, and Ancillary Services

- Infusion therapy and specialized high-technology services
- Laboratory and diagnostic services
- Nutritional support therapies and counseling
- Behavioral and mental health counseling and support services
- Preventative health and wellness programs

Technology-Enabled Care

- Telehealth services

Types of agencies included in this directory include:

HOME HEALTH AGENCIES

Typically provide **intermittent skilled visit services** for patients who need clinical care at home. Services are commonly ordered by a physician or other authorized prescriber and delivered according to an individualized plan of care.

At a minimum, home health agencies must provide:

- **Skilled nursing** services
- **Certified Home Health Aide** services
- **Physical therapy** services

Agencies may also provide: occupational therapy, speech-language pathology, medical social work, or nutrition counseling.

Payment & access:

Often approved for major payers, including Medicare and Medicaid (when eligibility criteria are met).

Some insurance plans may limit coverage to contracted (in-network) agencies—confirm prior to referral.

HEALTH CARE SERVICE FIRMS

Commonly provide **hourly services**—most often by a nurse and/or CHHA—to support patients who need help with personal care, safety, and activities of daily living. Visit frequency can range from a few hours per week to extended daily support.

Services may include: personal care, private duty nursing, companion support, housekeeping/homemaking, and other services offered by the firm.

No mandatory services are required by regulation in the same way as home health agencies. These firms cannot provide Medicare services, nor skilled Medicaid home health services as defined in N.J.A.C. 10:60.

Payment & access:

May be approved for Medicaid, managed care, or other community programs, depending on the service and authorization.

Frequently used for private pay and supplemental support when a patient needs more continuous help than intermittent skilled visits.

HOSPICE AGENCIES

Provide comprehensive care for individuals with **advanced illness, supporting both the patient and family**. Hospice emphasizes symptom relief, quality of life, and coordinated interdisciplinary care.

Hospice agencies provide a coordinated team approach that may include:

- Skilled nursing services
- Social work services
- Physician services
- Chaplain/spiritual support services
- Volunteer services

Many hospices also include bereavement support for families.

Payment & access:

Approved for most payers, including Medicare and Medicaid when eligibility criteria are met.

As with other services, some insurance plans may restrict use to contracted (in-network) hospices.

In addition to licensure, an agency may have one or more of the following:

- **Accreditation** (required for all health care service firms)

Accreditation Commission for Health Care (ACHC)

While you care for them, we care for you.

By connecting providers to patients, education, resources, and community, the **Home Care & Hospice Association of NJ** cuts “through the noise” to help agencies keep up with the ever-changing home care and hospice landscapes—so they can stay focused on what matters most: delivering high-quality home-based care.

Members of the New Jersey association access:

- ✓ **Weekly calls** covering all aspects of running a successful and adaptive business
- ✓ **Year-round access in real-time** to the most important updates and operational best practices
- ✓ **Education and training** opportunities year-round
- ✓ **Advocacy** at the state and federal levels
- ✓ **A network of peers** who understand the industry’s realities
- ✓ **Trusted guidance and consultation** from industry leaders and experts

**New Jersey’s source of ground-up support
for home care and hospice providers.**

STAYING INFORMED DURING EMERGENCIES

BUSINESS & INDUSTRY PREPAREDNESS PLANNING

PREVENTING WORKPLACE VIOLENCE

Provider Safety & Emergency Preparedness

Safe, prepared agencies play an essential role in New Jersey's home health and hospice continuum.

Use the following resources to protect staff, patients, and families during emergency events.

Staying Informed During Emergencies

Mobile / Text & E-mail Alerts

- Subscribe to the **NJ State Police (NJSP)** on Nixle Connect: <http://local.nixle.com/new-jersey-state-police/>

Register to receive messages from the NJ State Police and the NJOEM by sending a text message with your zip code to 888777 (data rates may apply).

- The **National Weather Service** can now send free weather warnings directly to your phone if a hazard is imminent in New Jersey. Check with your wireless carrier to see if your wireless phone is **WEA (Wireless Emergency Alert)** enabled to receive these messages. <https://www.fcc.gov/consumers/guides/wireless-emergency-alerts>

Social Media Alerts

Encourage your emergency preparedness lead to follow the **NJ Office of Emergency Management** and **NJ State Police** on Facebook and Twitter via the QR code:

Local Information Sources

Contact your **Office of Emergency Management County Coordinator** to receive localized information. <https://nj.gov/njoem/about-us/county-coordinators.shtml>

Online Weather Resources

- National Weather Service: <https://www.weather.gov/>
- National Hurricane Center: <https://www.nhc.noaa.gov/>
- New Jersey Specific Weather Forecasts, Watches and Warnings: <https://www.weather.gov/phi/>

NOAA Weather Radio

NOAA Weather Radio All Hazards (NWR) is a nationwide network of radio stations broadcasting continuous weather information directly from the nearest National Weather Service office, 24 hours a day, 7 days a week. NWR requires a special radio receiver or scanner capable of picking up the signal. These are typically inexpensive, easily available in stores, and can usually be programmed for your specific area.

Continue to monitor traditional media sources—TV, newspapers, and radio—to stay informed of breaking news and continued coverage of emergency events.

Preventing Workplace Violence

WORKPLACE VIOLENCE is any act or threat of physical violence, harassment, intimidation, or other threatening disruptive behavior that occurs at work.

Home health and hospice professionals, especially those who work alone in patients' homes or community settings, are at higher risk. OSHA recommends that employers establish a zero-tolerance policy that covers all workers, patients, clients, and family members, and that they offer the following protections.

EDUCATION

Train all staff regularly.

Provide safety education for employees so they know what conduct is unacceptable, what to do if they witness or experience workplace violence, and how to protect themselves.

SECURITY

Build safe environments for staff and patients.

Secure the workplace by installing alarm systems and video surveillance where it is appropriate.

Minimize access by outsiders through identification badges, electronic keys, and guards.

POLICIES & PROCEDURES

Put protections in writing.

Develop policies and procedures covering visits for home health care providers.

Address the conduct of home visits, reporting process, and the worker's right to refuse to provide services in hazardous or dangerous situations.

COMMUNICATION

Keep field staff connected.

Equip field staff with cell phones and handheld alarms or noise devices.

Require staff to prepare a daily work plan and make sure they keep a contact person informed of their location throughout the day.

SAFE TRAVELING

Support safe visits and routes.

Instruct employees not to enter locations that make them feel unsafe or provide an escort that can be there in potentially dangerous situations.

Keep employer provided vehicles properly maintained.

30
YEARS OF
PERSONALIZED
CARE

“ Their communication and follow-up has been very, very strong. The person who comes into our home to take care of our daughter is an exceptional nurse who combines knowledge, experience, caring, and intelligence with a sincere passion for taking care of people and making sure that they have the best possible life. We couldn't say anything more than **we are very grateful that she has come into our lives to take care of our daughter.** ”
