

Digest of Bills Passed

2017 Spring Session
of the Illinois
General Assembly

Prepared by the Department of Governmental Relations of the
Illinois Association of School Boards for the Illinois Statewide School Management Alliance

FOREWORD

July 2017

This summary of bills passed during the Spring Session of the Illinois General Assembly has been compiled to allow local school officials an opportunity to participate in an important lobbying function. Over the next few weeks the Governor will be considering these bills and will decide whether they merit his signature or veto. Therefore, we submit this digest to you and suggest that you contact the Governor's office regarding any bill that is important to your local district. **Address correspondence to: Office of the Governor, 207 State House, Springfield, Illinois 62706.**

The Illinois Statewide School Management Alliance lobbying team has made every effort to identify and include in this publication any bill that affects the schools. We recognize, however, that one or more bills may have escaped our attention. Also, please note that the synopsis of each bill is extremely brief and may or may not encompass the full content or impact of the bill. Rather, the synopsis is designed to call to the readers' attention any proposed statutory changes and additions that may merit further research. For full meaning, it may be necessary to obtain a copy of the complete bill.

Copies of bills may be obtained from the Illinois Legislative Information System website at <http://www.ilga.gov/>

In locating bills of interest to you, note that the bill summaries are organized under subject matter categories arranged alphabetically as shown in the Table of Contents. In addition, two indexes are provided which may be used to identify a bill by title or number. Also included is a heading of "Last Action" after each bill description, a section labeled Gubernatorial Action Bills, and a section on Determining Effective Dates; these additions should help you determine where the bill is in the process.

If you have any questions about legislation please call one of the offices of the Illinois Statewide School Management Alliance and ask for the governmental relations staff. We welcome your comments and suggestions regarding the content and format of this publication.

Summary: The bill contains a new school funding distribution formula which uses an evidence-based approach. The model uses a unique formula for each district based on the demographics and characteristics of the district enrollment. The criteria used is based on years of evidence of best practices in student achievement and, in some cases, statewide averages. The formula is designed to drive state funding dollars to those school districts in the most need based on their financial situation and unique characteristics.

Each school year, a district will receive its Base Funding Minimum (generally, a hold harmless) as well as its portion of new state dollars appropriated above the Base Funding Minimum total. To allocate new state dollars, the Evidence-Based Formula places districts into one of four tiers. In aggregate, districts in Tier 1 will receive 40 percent of new state dollars; districts in Tier 2 (including Tier 1) will receive 59 percent of new state dollars; districts in Tier 3 will receive .9 percent and districts in Tier 4 will receive .1 percent of new dollars. Tier 1 and 2 districts will receive new state dollars based on their Funding Gap which is determined by multiplying the Target Ratio of the Tier they are in by their individual Adequacy Target.

GUBERNATORIAL ACTION ON BILLS

Section 9 of the Illinois Constitution provides that every bill passed by the General Assembly shall be presented to the Governor within 30 calendar days of its passage. The Governor then has 60 days from that date in which to act on a bill by either signing or vetoing the legislation. If the Governor chooses not to act on the legislation it automatically becomes law after the 60-day period.

Below is a chart to indicate the appropriate action that follows gubernatorial action:

GOVERNOR'S ACTION	LEGISLATURE'S OPTIONS	VOTE REQUIRED IN EACH CHAMBER	RESULT
Sign the bill	—	—	Bill becomes law
Do nothing for 60 days	—	—	Bill becomes law

DETERMINING EFFECTIVE DATES

To determine a bill's effective date, four elements are important:

1. Is the effective date given in the bill itself?
2. On what date did final passage of the legislation occur?
3. If the legislation passed after May 31, how many votes did it get in each chamber of the General Assembly?
4. On what date did the governor sign the legislation?

After you have identified these four things, the Illinois Compiled Statutes (5 ILCS 75/1), Section 10 of Article IV of the Illinois Constitution and Rules of the General Assembly establish a procedure to determine effective dates. The following is a brief description of these rules:

Bills Passed Prior to June 1

A bill passed prior to June 1 of a calendar year that does not provide for an effective date in the bill shall be effective January 1 of the following year or upon signing, whichever is later.

A bill passed prior to June 1 of a calendar year that does provide for an effective date in the bill shall become effective on that date if that date is the same as the signing date or after the signing date.

A bill passed prior to June 1 of a calendar year that does

provide for an effective date in the bill shall become effective on the date that it is signed if the effective date provided in the bill occurs before the date of signing.

Bills Passed After May 31

A bill passed after May 31 of a calendar year that does not provide for an effective date in the bill shall become effective June 1 of the following year or upon signing, whichever is later.

A bill passed after May 31 of a calendar year that does provide for an effective date in the bill and passes the General Assembly with a 3/5 majority (at least 71 in the House and 36 in the Senate) shall become effective on the date that is defined in the bill if that date occurs on or after the date of signing.

A bill passed after May 31 of a calendar year that does provide for an effective date in the bill and passes the General Assembly with a majority of those voting (at least 60 in the House and 29 in the Senate) shall become effective on June 1 of the next calendar year.

A bill passed after May 31 of a calendar year that does provide for an effective date in the bill and passes the General Assembly with a 3/5 majority (at least 71 in the House and 36 in the Senate) shall become effective on the date of signing if that date occurs after the effective date stipulated in the bill.
