IDUG Db2 Conference in Charlotte
### June 2–6, 2019

Abstract Deadline Extended to November 12

If you're interested in presenting at the 2019 NA IDUG Db2 Conference in Charlotte, you're in luck. We've extended the deadline for abstract submissions. You have one more week to submit your abstract. This is your opportunity to share your expertise with an audience of your peers. If your presentation is selected for the conference, you'll receive one free registration. Be sure to submit your abstract by November 12 to be considered.

Submit an Abstract

Early Bird Registration Is OPEN

This year's IDUG NA conference is a great opportunity to learn about IBM's new exciting announcements on exploiting Db2 data with artificial intelligence, machine learning, and deep learning. We will have a lineup of the top presenters from IBM Development Labs in Germany, Canada, and Silicon Valley.

Register Now

IDUG Db2 Conference in Malta
November 4–8, 2018

The IDUG Db2 conference in Malta is happening now! With over 100 hours of technical sessions, attendees will be ready for these great evening networking events.

35th Annual IBM Db2 Awards Ceremony & Reception Dinner
Tuesday, November 6

We're so excited to celebrate 35 years of Db2 at this year's EMEA conference. To help commemorate this milestone, there will be a Db2 35th anniversary dinner reception. If you're at the conference, you can pick up your ticket and anniversary pin from the IBM Booth. Limited seats available.

CA EMEA IDUG After Dinner Party
Wednesday, November 7

This year, CA Technologies will be hosting the CA EMEA IDUG After Dinner Party. This will give attendees a chance to connect with other professionals in a relaxed and fun environment. For those in Malta, visit the CA booth for details and to pick up your ticket.

Data Tech Summit Recap
San Jose, California

In early October we hosted the second-ever Data Tech Summit in San Jose, California. With 220 attendees, the event constituted the largest customer event in the IBM Silicon Valley Lab's 40-year history. The event allowed attendees to connect with IBM leadership and developers. Highlights included:

- Three-day technical track + 1.5-day exec track
- 60 sessions across six categories
- User presentations on Db2 AI, DevOps, machine learning, analytics, and more
- Prominent industry speakers
- Mini Expo featuring new Db2 for z/OS solutions
- Excellent food
- A Meet the Lab Reception

Temporal Auditing Enhancements in Db2 12

Continuous Delivery

This article series discusses the major Db2 temporal enhancements delivered in Db2 12 for z/OS and Db2 for z/OS Continuous Delivery (CD) (e.g., temporal logical transaction, temporal RI, and replication and temporal query enhancements on temporal auditing). These capabilities provide great opportunities to streamline users' time-based data designs for overall deployment and performance. The paper also provides a brief roadmap of major temporal support across Db2 10, 11, 12, and 12 continuous delivery and will position Db2 for z/OS users to exploit the powerful features available at different migration stages.
