

Clinical Instruction Site Directory

The ILCA Clinical Instruction Directory identifies sites around the world that provide clinical experience supervised by an International Board Certified Lactation Consultant® (IBCLC®). Sites registered in the directory are supervised by an IBCLC and ILCA member who completed ILCA's Clinical Instructor Workshop or a similar program offered elsewhere. Sites provide varying amounts and types of clinical experience. Clinical Instruction Sites are organized by country. If you would like to be added to the directory, please contact the Education Manager at education@ilca.org.
