9:00 AM	10:30 AM	Augustus Ballroom	Keynote - The Element: How Finding Your Passion Changes Everything	What does it take to achieve personal success and feel like you are in your element? World-renowned innovator Sir Ken Robinson argues that it is not natural talent that drives personal success, but rather a delicate interplay among talent, passion, attitude and opportunity that brings people to achieve their highest levels of success and lead lives of meaning and purpose. Based on his newly released and highly acclaimed book The Element: How Finding Your Passion Changes Everything, Robinson takes audiences on a compelling tour of what can happen in all our lives when passion and talent meet. He draws on the personal stories of high achievers in many fields, including Sir Paul McCartney, Arianna Huffington, Matt Groening (creator of The Simpsons), Meg Ryan and renowned physicist Richard Feynman. With a wry sense of humor, Sir Ken helps audiences understand: • What it takes to find "The Element" in our own lives • Why age and occupation are no barrier • How to enhance creativity and innovation in both personal and professional settings • How focusing on "The Element" is an essential strategy in transforming education, business and communities to meet the challenges of living and succeeding in the twenty-first centuryHashtag: #ILTACON #KEY1	#KEY1

11:00 AM	12:00 PM	Florentine Ballroom I & II	The Three C's of Office 2013/O365: Connectivity, Communication and Collaboration	A "TED-style" talk about the wide range of benefits and issues of using Office 2013/365. Connectivity - is Any Device, Any Time, Anywhere fact or fiction? Communication - is it possible to go beyond simple access to email and add social layers the way most people do in their normal lives? Collaboration - has always been touted but rarely realized outside of the office. Is that still true? We'll discuss workflows, collaboration with documents, and the full connectivity of Office. Of course, we can't discuss this without discussing migration, training, support, and challenges surrounding security, client confidentiality, and risk This is where the Three C's come head to head with Risks and Rewards! Hashtag: #ILTACON #ILTA006	#006
11:00 AM	12:00 PM	Florentine Ballroom III & IV	Embracing Managed Services for Litigation Support	Is your firm contemplating a move to a managed services model? Are you wondering what the journey entails? A panel of leaders who have embraced the switch to managed services for litigation support will tell their tales of what led them there, associated costs, staffing, the type and volume of work and, most important, how it is working out.Hashtag: #ILTACON #ILTA007	#007

11:00 AM	12:00 PM	Milano Ballroom I & II	Incident Response Planning That's Battle-Tested, Client-Approved	Do you have a documented information security incident response plan that involves more than just IT staff? If not, the chances of successfully dealing with a real-world security incident drop sharply. Our panel of seasoned incident responders will provide answers to the who, what, when, how and why of proactive security incident response planning for organizations large and small.Hashtag: #ILTACON #ILTA001	#001
11:00 AM	12:00 PM	Milano Ballroom III & IV	Strategy Isn't Reserved for the C-Suite	Every individual inside the organization is linked to the success of the business and plays a part in the firm's strategy, not just the executive team or CEO. Each function, team and person must take responsibility for delivering results today while formulating and implementing the strategic changes that will shape the future. Get some helpful tips for uncovering ways to add a theoretical "Strategist" to your title. Hashtag: #ILTACON #ILTA004	#004

11:00 AM	12:00 PM	Milano Ballroom V & VI	Does Lean Six Sigma Really Work?	Is Lean Six Sigma an essential discipline for lawyers, or is it a waste of time and money? Law firms and law departments want process improvements, but does Lean Six Sigma really work? Is there a "light" version of Lean Six Sigma that is better suited to the work of lawyers? Is Agile better? Our panelists will provide a brief introduction to Lean Six Sigma principles and will help attendees evaluate the value of these disciplines.Hashtag: #ILTACON #ILTA008	#008

| 11:00 AM | 12:00 PM | Neopolitan Ballroom I & II | Creating the Firm of the Future: Utilizing IG Assessments To Drive Improvements | In a world of ever-rising concerns of privacy, security and protecting intellectual property, clients are now more information savvy, and are insisting that their law firm representation is maintaining high standards when it comes to internal information governance (IG) strategies and practices. Therefore, the firms of the future will need to able to offer clients proof of where they stand on the maturity of these practices to secure client trust and confidence.
Is your firm ready to answer the call for transparency? In this session, you will learn how an IG assessment can play a critical role in taking your firm to the Next Level in preparing to meet your clients' increasing demands and expectations for governing their information. You'll understand what it takes to deploy a firm-wide assessment, and hear about real-world experiences with implementation and leveraging outcomes.Hashtag: #ILTACON #ILTA009 | #009 |
| 11:00 AM | 12:00 PM | Roman Ballroom I | Top 10 Tricks for Server Virtualization | Results from the 2014 ILTA Technology Survey show that 69 percent of respondents are over 75 percent virtualized only three percent are not virtualized at all. Despite those impressive numbers, many continue to struggle with effectively managing their virtualized environment. Stop by to hear our top 10 recommendations and tips for deploying, mantaining and troubleshooting your new or existing virtual server environment. Stick around for valuable takeaways on the different ways firms are automating, designing, monitoring and backing up their virtual environments, and learn more about storage options and new technology solutions on the horizon.Hashtag: #ILTACON #ILTA002 | #002 |

11:00 AM	12:00 PM	Roman Ballroom II	Quality In, Quality Out: Data Analytics Preparation	In a world of ever-growing data stores, many firms are faced with large amounts of unstructured data and questions about how to take advantage of "big data" concepts. The secret is to create data analytics that provide the right amount of data in a way that answers the questions asked by practice leaders, firm leadership and business development teams. Learn how to start by simplifying and correlating existing, disparate data sources and then see how to judicially apply tags and other metadata to extend your capabilities into the world of big data. When you put quality in, you'll get quality out of your data analytics preparation.Hashtag: #ILTACON #ILTA003	#003
11:00 AM	12:00 PM	Roman Ballroom III	Shooting for the Clouds: An In-Depth Look at Cloud Computing	The cloud. It has become more than just a place to host services such as spam filtering. The cloud today can be used to host your entire infrastructure including servers, storage and appliances. Two of the largest companies for cloud services are Amazon and Microsoft. Come hear an in-depth discussion on both AWS and Azure storage, servers, infrastructure environment and how they can be used for your firm.Hashtag: #ILTACON #ILTA005	#005
11:00 AM	12:00 PM	Roman Ballroom IV	Aderant Company Update	Join Aderant executives as they outline the company's strategy for delivering the technology solutions and services firms of all sizes need to manage their business and increase profitability. Hear an update on recently released products and get a sneak peek at future Aderant solutions in development for both the front and back offices. Aderant will also share industry insights about the future of law firm technology and how they are collaborating with clients to deliver best-in-class solutions.Note: This session will not be audio-recorded.Hashtag: #ILTACON #ILTA010	#010

Aug 31, 2015 1:00 PM

Start Time	End Date	Room	Session	Description	Event Code

1:00 PM	2:00 PM	Florentine Ballroom I & II	Joining Forces: How Firms Are Working Collaboratively Across Organizational Boundaries to Drive Performance (formerly "IT Training Partnerships")	Law firms are beginning to see positive results when combining learning and development efforts across multiple departments. In some cases, they've joined forces for specific educational initiatives other firms have gone so far as to combine training resources under a single umbrella. Join us as we explore the benefits and challenges of reaching across the aisle as three directors/managers share their personal experiences of collaborating outside their departments and eventually leading a combined group. Walk away with helpful how-to's for collaborating to create a collective development, and come prepared to share and learn during a facilitated roundtable discussions with peers.Hashtag: #ILTACON #ILTA018	#018
1:00 PM	2:00 PM	Florentine Ballroom III & IV	Up, Up and Away! Your Ascent into the Cloud!	In the quest for greater efficency, it is no doubt that cloud technologies are on the minds of IT managers and CIOs everywhere. Participate in this interactive discussion as experts who have embraced the cloud share how you can best position your firm to take advantage of present-day cloud options that will prepare you for tomorrow.Hashtag: #ILTACON #ILTA021	#021
1:00 PM	2:00 PM	Milano Ballroom I & II	Mobile Device Management Shootout	Law firms continue to wrestle with how best to secure data and applications on smartphones and tablets without the hassle of the administrative burden. Enterprise mobility management (EMM) solutions can ease this struggle, but which one is best? Come gain consultative, valuable information on the four products identified as Leaders and Visionaries in Gartner's 2015 Magic Quadrant for Enterprise Mobility Management: MobileIron, VMware Airwatch, Citrix XenMobile and Microsoft Intune. You will learn specifics on the suite of features offered by each product, challenges they present, worst practices to avoid and tricks to improve the user experience. Whether venturing into EMM for the first time, confirming you selected the right product for your firm or struggling with your current solution, you will have all the information needed to easily assess which product is best for your firm. Hashtag: #ILTACON #ILTA013	#013

1:00 PM	2:00 PM	Milano Ballroom III & IV	The Client's Perspective on Maintaining Data Security and Confidentiality	Confidential information faces greater security threats than ever before, and the dangers to lawyers and their firms are significant. Sophisticated attacks can come from many sources, including hackers, cybercriminals, economic spies or trusted insiders who are dishonest, bored or simply fooled by a clever malware program. What do your clients think about the way you protect their data? This program will include the voice of the client to help law firms and law departments understand and address client concerns about data security and confidentiality.Hashtag: #ILTACON #ILTA016	#016
1:00 PM	2:00 PM	Milano Ballroom VII & VIII	Innovation and Empowerment: Do More, Achieve More (Microsoft Company Update)	As Microsoft continues its transformation from being a software company to becoming a provider of devices and services, you might wonder how those changes align with the needs of your firm or department. Microsoft will review and highlight how products you have come to depend on to run your business are expanding their reach and value while lowering their costs of operations. It has been a great year of innovation, and we are excited to share the new capabilities coming to market and help map these specifically to the legal industry to help meet your business needs.Note: This session will not be audio-recorded.Hashtag: #ILTACON #ILTA023	#023
1:00 PM	2:00 PM	Milano Ballroom V & VI	Building Information Governance Like "Ocean's Eleven"	In the 2001 movie "Ocean's Eleven," George Clooney assembles the perfect team to pull off a spectacular Vegas robbery. In managing IT governance, risk and compliance (GRC), your firm also needs to assemble the perfect team. How do you find and manage the key players in GRC, and how do you properly divide the varied responsibilities that must be shouldered? Together we can figure out how to build a team that prepares us for the heist (GRC program) of a lifetime. Hashtag: #ILTACON #ILTA020	#020

1:00 PM	2:00 PM	Neopolitan Ballroom I & II	Litigation Support Roundtable	We all hate the fire drills and would like to prepare for challenges before they arrive. What major challenges in litigation support will we face next? During this moderated roundtable discussion of hot topics in litigation support, we will address concerns on the minds of your peers and identify issues to consider for the future. Topics will be selected by session attendees and could include staffing, product selection, technological advances, recent case decisions, outsourcing, etc.Hashtag: #ILTACON #ILTA019	#019
1:00 PM	2:00 PM	Roman Ballroom I	The View from Above: Chiefs Address Industry Trends and Challenges	New industry trends, changing business strategies and new pressures are affecting the delivery of legal services to our clients. But what is most important for us to know? Get a unique view from above as our panel of chief officers share their insights and experiences on the most pressing challenges facing our industry and the role IT plays as a strategic partner within their firm.Hashtag: #ILTACON #ILTA014	#014
1:00 PM	2:00 PM	Roman Ballroom II	Future-Proof Projects with Effective Best Practices	We often talk about incorporating lessons learned into our processes, which means highlighting things that did not go well and then identifying process improvements to address similar issues in the future. However, it's just as important to identify and incorporate those ideas that resulted in success. Find out how to make the most of every lesson learned and future-proof your projects as a panel discusses effective best practices from the perspectives of project management, operational excellence and user adoption.Hashtag: #ILTACON #ILTA015	#015
1:00 PM	2:00 PM	Roman Ballroom III	CFO Roundtable	The CFO roundtable is back by popular demand! We'll discuss the latest issues related to law firm accounting and management, including collections, dashboarding and analytics. This will be an open mic discussion, and everyone is encouraged to participate!Hashtag: #ILTACON #ILTA017	#017

2:30 PM	3:30 PM	Milano Ballroom V & VI	The Conference Room of the Future	?Conference rooms are just for meetings, right? How much technology do they need? If only that were true. Law firm conference facilities have become multipurpose facilities, hosting media events, video shoots, marketing programs, continuing education sessions, as well as "plain old" meetings. Join our panel as they explore the many faces of the modern conference center and the technologies (audio, video, projection, production, etc.) needed to meet the future (and current) needs of your lawyers, marketing professionals and other staff. Be prepared to share your hardest conference room use cases! Hashtag: #ILTACON #ILTA032	#032

2:30 PM	3:30 PM	Neopolitan Ballroom I & II	Information Governance Consulting: Law Firm Opportunity or Mistake?	Driven by information security requirements, e-discovery costs and government regulations, clients are turning to law firms for strategic approaches to managing their information. Law firms have an opportunity to assist and further direct and grow information governance initiatives within client organizations, but what are the risks of this type of work? What do clients expect? What can law firms provide that technology solutions do not, and what benefits come from this type of client relationship? Opportunity or mistake? You make the call!Hashtag: #ILTACON #ILTA033	#033
2:30 PM	3:30 PM	Roman Ballroom I	A Bird's-Eye View into Windows 10	The new Windows 10 operating system is here. Many organizations are wondering if they should upgrade to this latest version or stick with their current Windows environment. If you are interested in understanding the benefits of this new platform and gaining some high-level insight into the various features, come, listen and explore Windows 10 with us.Hashtag: #ILTACON #ILTA026	#026
2:30 PM	3:30 PM	Roman Ballroom II	Peeling Away the Many Layers of Intrusion Prevention	Over the years, security efforts have been focused primarily on preventive measures. Although prevention is a necessary component of a mature security program, it is no longer sufficient. The modern attacker is persistent, motivated, well-funded and adept at findings ways into an organization and taking that organization's most sought-after data. To counter this new threat landscape, a paradigm shift is underway in the security realm — one that focuses on the right mix of prevention and detection/response. Let's peel away all the layers of intrusion prevention and get to the heart of what will keep our organizations' data secure.Hashtag: #ILTACON #ILTA027	#027

Start Time	End Date	Room	Session	Description	Event Code
4:00 PM	5:00 PM	Florentine Ballroom I & II	Let KM Drive Client Value the Don Draper Way	Last year's ILTACON session on "Upselling KM: What Would Don Draper Do?" was not only entertaining, it had a tremendous wealth of information about selling knowledge management (KM) within your organization. This year, we continue with the Don Draper theme, the theatrical presentation style, and we move forward in time to 1969. We will focus on how law firms and legal departments can leverage KM to deliver more value to clients. The Association of Corporate Counsel defines the components of "value" as being lower costs, higher predictability and better outcomes, so the panel of speakers will present ways to harness KM resources to deliver on each component. Walk away with a toolkit to help connect KM initiatives to these elements of client value. Far out, man!?Note: This session will not be audio-recorded.Hashtag: #ILTACON #ILTA042	#042
4:00 PM	5:00 PM	Florentine Ballroom III & IV	Network Monitoring: Know What Fish Are Swimming in Your Sea	Network monitoring is important to ensure you have a handle on what fish are swimming in your data sea, so let's make sure you're prepared to catch unwanted predators. Gain insights from IT professionals who have implemented various monitoring tools and products in their firms as they begin with an overview of popular and new product offerings and their strengths and weaknesses. Learn how to eliminate white noise, implement best practices for creating workflows and escalation paths, perform product fine-tuning, and improve the user experience. Leave with actionable and valuable takeaways that will help you eliminate the reactive scramble for fixes with a framework for a proactive monitoring strategy.Hashtag: #ILTACON #ILTA043	#043

4:00 PM	5:00 PM	Milano Ballroom I & II	Best Practices for Business Development and Pricing Partnerships	Clients want value. Attorneys want business. Do your pricing folks wish their colleagues knew more about pricing and profitability? Do your business developers wish they could do more than refer attorneys to "talk with finance" on every RFP? Does the in-house team wonder why firms seem to resist the whole process? How can you connect the dots so everyone gets what they want and more functional relationships emerge between all three areas? Our panelists will dive into the complex relationships between in-house legal departments, business development professionals and pricing experts. Along with contributions from the audience, we will look to find common ground, understand what lies behind our differences and, ultimately, inspire a more collaborative approach across the board. Hashtag: #ILTACON #ILTA037	#037
4:00 PM	5:00 PM	Milano Ballroom III & IV	Remote Support Solutions for the Legal Service Desk	The landscape of legal technology continues to evolve and so does the selection of endpoint devices, remote work locations and work preferences. We're living in a world of BYOD and direct/anywhere access, which creates a new set of challenges for legal service desks, such as how to support the latest remote access methods, especially for highly mobile attorneys. Join us for an interactive session and learn more about these topics including an overview and ranking of the most commonly used tools, what's built-in at little to no cost, and when and where more advanced solutions might be required to support and secure tablets, smartphones and laptops. Hashtag: #ILTACON #ILTA040	#040
4:00 PM	5:00 PM	Milano Ballroom VII & VIII	Worksite 9, Office 2016 and Office 365: Which Way to Go?	Join industry leaders in an informative discussion about Worksite 9, Office 2016 and Office 365, where we will identify the considerations each firm needs to address before deciding which way to go with these core applications. In charting the road map, we will include a focus on mobility, the challenges of ensuring security and document integrity within the DMS, and document collaboration with colleagues and clients.Hashtag: #ILTACON #ILTA047	#047

4:00 PM	5:00 PM	Milano Ballroom V & VI	Disintermediation: Protecting Your Client Relationships	In economics, "disintermediation" is the removal of intermediaries in a supply chain or "cutting out the middlemen." Notable examples in the technology world include Dell and Apple, which sell many of their systems directly to the consumer. The legal market is not immune to disintermediation, most notably in e-discovery. Instead of feeling doomed, learn how technology and increased automation present unprecedented new opportunities for growth and strengthening of client relationships.Hashtag: #ILTACON #ILTA044	#044
4:00 PM	5:00 PM	Neopolitan Ballroom I & II	iPad Tips, Tricks, Apps and Accessories for Day-to-Day Practice to the Courtroom	As more and more lawyers start to use the iPad as part of their daily work, firms are working to understand the ways a tablet can be used as a productive part of legal practice. Come learn about the many ways lawyers can use the iPad, from creating documents to reviewing case files, as well as the apps that make the iPad the number one tablet for litigators.You'll also discover those accessories that all lawyers need, as well as tips and tricks lawyers can use to improve the way they provide services to their clients.Hashtag: #ILTACON #ILTA045	#045
4:00 PM	5:00 PM	Neopolitan Ballroom III & IV	The Virtual Manager: Leading Successful Teams from Afar	Today's technology allows your staff to work from different offices around the globe, and some even telecommute from home. How do you successfully manage staff members who might rarely, if ever, meet in person? Technology comes into play, but success is realized with refined management skills and the ability to engage a range of personalities. Want to hear how others are finding success from afar? Join a panel of leaders managing teams that telecommute and/or have staff in multiple locations.Hashtag: #ILTACON #ILTA048	#048

4:00 PM	5:00 PM	Roman Ballroom I	HELP! More Women Needed!	There just aren't enough women in technical roles or upper management within the legal IT community. In 2013, women made up only 26 percent of the computing workforce, and it's estimated that professional women earn 73 cents to the dollar compared to men. It's time for a drastic change! Join three dynamic and successful women for this panel on where we are now, what needs to be done and how to champion and support others both inside and outside your organization. Hashtag: #ILTACON #ILTA038	#038
4:00 PM	5:00 PM	Roman Ballroom II	A Buyer's Market for Legal Services: How Does It Impact Us?	It is clear that it remains a buyer's market for legal services, but what does that mean for legal technology? We will explore implications of this shift for law departments, law firms (including an assessment of the impact on various areas within the firm) and technology vendors. Learn about the skills, tools and techniques that can prepare you and your firm for the buyer's market.Hashtag: #ILTACON #ILTA039	#039
4:00 PM	5:00 PM	Roman Ballroom III	Is Big Data in Legal a Figment of Our Imaginations?	The big data phenomena simply does not apply to the legal market. After all, our firms' data sets and data complexities are much too small to warrant industrial-strength big data technologies and techniques, right? This panel of law firm technology, privacy and governance experts strongly disagrees! We will share firsthand examples of big data at work in our law firms and show how to apply "big data thinking" to utilize technologies and techniques in a new, more productive, efficient and analytical way. Get ready for real-time role playing aimed to arm you with the information you need to address your managing partner's big data questions (and doubts) and build a solid big data business case even the biggest curmudgeon can't deny. Along the way, our experts will touch on hot themes including technology (analytics, algorithms, etc.) and governance (including privacy and security). We'll also share enough legal big data (BD) case studies to make BD-lievers out of everyone!Hashtag: #ILTACON #ILTA041	#041

8:30 AM	10:00 AM	Neopolitan Ballroom I & II	Pricing Roundtable	How confident are you that you are properly pricing your work? Do you know what your costs are? What can you do to build pricing competency without having staff dedicated to pricing projects? Our panel will provide case studies to help you address these and other pricing challenges. Join the discussion and express your views using Event Pad to comment and vote on ideas during this interactive session!Hashtag: #ILTACON #ILTA050	#050

8:30 AM	10:00 AM	Neopolitan Ballroom III & IV	Tools That Change the Speed of Legal Service Delivery	Experience a showcase of four new products that change the way attorneys practice law and improve the speed of legal service delivery. You'll see a mix of tools for both transactional and litigation practices, including an IP automation workflow, deal process life cycle, mobile collaboration tool for case teams and a tool to manage the corporate legal processes for the evolving stages of the life cycle of a company.Hashtag: #ILTACON #ILTA049	#049
8:30 AM	10:00 AM	Octavius 1	TraceCSO for Comprehensive Information Security Capabilities	Cybercriminals consider the legal profession to be a target-rich community. When law firms aggregate massive amounts of client data onto insecure systems, they have gift-wrapped all the important data for an attacker. It doesn't have to be that way! Come see how the cloud-based TraceCSO solution is transforming the IT governance, risk and compliance management market by providing enterprise-class capabilities to law firms of all sizes. You'll witness best practices and comprehensive information security capabilities delivered through an intuitive user interface, wizards, guidelines and helpful hints.Hashtag: #ILTACON #SS001Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors	#SS001

| 8:30 AM | 10:00 AM | Octavius 2 | Capensys: Improve Technology Efficiency (and Prove It!) | Clients are asking firms to prove their technology efficiency, but how do you structure a successful training program that demonstrates the efficiency improvements made? Capensys has a unique methodology and tools to establish the measurements for any training initiative and provide results to show financial and other tangible improvements. Learn how to demonstrate improvements to clients and internal stakeholders by establishing goals and translating them into measurable criteria, developing relevant curriculum using industry-standard core competencies (LTC4), measuring user skills and improvements, showing financial and efficiency improvements using a dashboard, and certifying attorneys and staff in Legal Technology Core Competencies (LTC4).Hashtag: #ILTACON #SS002Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors | #SS002 |
| 8:30 AM | 10:00 AM | Roman Ballroom IV | Enterprise Search Roundup | A panel of three law firm professionals and three vendors will discuss enterprise search solutions. How do you vet the products? What are the use cases that enterprise search addresses? What makes a successful solution? For firms that have already implemented enterprise search, how can you take your solution to the next level (without a high price tag)? What is on vendors' enterprise search road maps for the near future? Let's round up those answers!Hashtag: #ILTACON #ILTA049A | #049A |

11:00 AM	12:30 PM	Emperors Ballroom I	Deploying and Supporting Microsoft Surface Devices	Attorneys are demanding smaller devices that allow them to work natively while away from the office, and they are not interested in carrying a tablet and a laptop. For many firms, the Microsoft Surface Pro could be the right solution for attorneys who work on the go. Not sure about that? Three firms that have distributed Surface Pros to their attorneys will share decision-making motivators for the switch and tips and tricks that are unique to these devices.Hashtag: #ILTACON #ILTA054	#054
11:00 AM	12:30 PM	Emperors Ballroom II	Breaking the Cycle of "But We've Always Done It This Way"	The phrase "but we've always done it this way" is so last century. Join this experienced and engaging panel of training professionals moderated by an energetic thought leader in the legal training industry as they share their triumphs in disrupting this cycle. Learn from the best in the business as they share proven methods for developing a true culture of learning, and walk away with innovative and engaging techniques to transform your firm's training program.Hashtag: #ILTACON #ILTA055	#055
11:00 AM	12:30 PM	Florentine Ballroom I & II	Why the @#$&*! Did You Download That?	For better or worse, employees have always been able to tinker with technology. In years past, the most a user could do was download and install an application on their computer. We've tightened our security to better ensure staff can download the good, but not the bad. However, employees no longer need to download anything to go rogue, they can implement enterprise-grade, cloud-based solutions with nothing more than a Web browser and a credit card. Employees enjoy tremendous control over their mobile devices and many can download whatever they want. What are the risks and rewards of this mobile revolution? Who should care? What can we do about it? Find of the answers to these questions and more!Hashtag: #ILTACON #ILTA052	#052
11:00 AM	12:30 PM	Florentine Ballroom III & IV	Don't Just Implement. Adopt!	Move beyond the basic deployment of a new tool or resource with hopes that "if we build it, they will come." We'll give you new strategies for engaging users and increasing adoption rates by insinuating solutions into workflows and more closely embedding technology solutions into attorney problems. Don't just implement. Adopt! Hashtag: #ILTACON #ILTA053	#053

11:00 AM	12:30 PM	Milano Ballroom I & II	The Threat Landscape for Legal	Law firms are one of the top 10 targets for cybersecurity attacks. They are "funneling points" for information, holding sensitive data from numerous clients, which makes them a rich target. Join an FBI Special Agent with the Las Vegas office and a principal in Cisco's Security Services Advisory practice for a discussion on the evolving sophistication of attackers and the increasingly dynamic pace of the threat landscape. Given the sensitivity of this session, NO AUDIO OR VIDEO RECORDING OF ANY KIND is allowed.Hashtag: #ILTACON #ILTA058	#058
11:00 AM	12:30 PM	Milano Ballroom III & IV	Watson, I Need You! Augmented Intelligence for Legal	IBM's Watson won Jeopardy in 2011. Today it is transforming the practice of medicine, education and even the culinary arts. Join us for this exciting session to see what Watson can do for legal. Learn about the difference between augmented and artificial intelligence (among other things) and how this technology can be applied to the legal profession. Don't miss it!Hashtag: #ILTACON #ILTA060	#060
11:00 AM	12:30 PM	Milano Ballroom VII & VIII	To Share Or Not To Share: The Debate Over Disclosure of E-Discovery Protocols	What do you have to tell opposing counsel about your search, culling and review strategies? What if they object? What do courts say about these issues? Litigation support professionals will hear a thought-provoking discussion between Judge Andrew Peck and a panel of lawyers with differing views about the delicate balance between cooperation and advocacy. Hashtag: #ILTACON #ILTA051	#051
11:00 AM	12:30 PM	Milano Ballroom V & VI	G100 CIO Event Recap	Join members of ILTA's G100 CIO Advisory Board as they provide a recap of the G100 CIO event held on Monday, August 31st.Hashtag: #ILTACON #ILTA061	#061
11:00 AM	12:30 PM	Neopolitan Ballroom I & II	Marketing Technology Roundtable: Tackling Trending Topics	A panel of marketing experts will share their opinions and kick off the conversation in this interactive roundtable discussion. Proposed topics and questions will be gathered during the href="http://www.iltacon.org/agenda/networkinginfo" target=_blank>Communities of Interest</A> on Sunday. Come ready to ask questions, express your thoughts and share ideas!Hashtag: #ILTACON #ILTA057	#057

11:00 AM	12:30 PM	Neopolitan Ballroom III & IV	System Center 2012: What's New and Why Should It Be a Priority?	Are you still waiting for a compelling reason to update to System Center 2012 Configuration Manager (ConfigMgr 2012)? Do you want to migrate to a newer version of Windows, but don't know how? Join us for an overview of the key components of ConfigMgr 2012, such as Automatic Deployment Rules for patching, operating system deployment and application self-service installations. We will also look at how we can leverage ConfigMgr 2012 and the AppSense Desktop Now suite to simplify the deployment process for IT staff and create a seamless transition of the user persona.Hashtag: #ILTACON #ILTA063	#063
11:00 AM	12:30 PM	Octavius 1	Tikit: HTML5 vs. Native Development: Which Is Best? When and Why?	Are native apps or HTML5 the way to go when developing new legal software? Technology changes quickly, and what was the wrong decision yesterday might be the correct one today. While the likes of Facebook and LinkedIn decided to drop HTML5 in favor of native apps over three years ago, how does HTML5 compete today? Is native still the way to go? A panel of development experts and executive decision-makers from Tikit, HP Worksite and Seyfarth Shaw will explore recent development strategy decisions around HTML5 and native applications. They will also share lessons learned related to provisioning, securing and supporting the different app types within a firm. We expect a lively debate and encourage you to participate in the discussion!Hashtag: #ILTACON #SS003Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors	#SS003

11:00 AM	12:30 PM	Roman Ballroom I	Successfully Selling an Information Governance Program	What is the secret to selling the idea of implementing an information governance program at your organization? A panel of experts will discuss the business drivers relevant to getting people on board, including key indicators of success.Hashtag: #ILTACON #ILTA056	#056
11:00 AM	12:30 PM	Roman Ballroom III	The Rise of Corporate Legal Operations Officers: Bringing On Long-Term Changes	In the ongoing evolution of the provision of legal services, the role of "Corporate Legal Operations Officer" (CLOO) has taken hold. This new role drives the day-to-day management of in-house legal department operations and departmental strategy. CLOOs are behind big changes impacting in-house legal professionals and the law firms they work with every day. They are creating big opportunities for collaboration among all the players in the legal ecosystem and slowly adding to and changing the balance of power among those players. How can firms best work with corporate legal operations officers? What technology investments should law firms make to maximize their profits and secure business opportunities with in-house clients? Will project management be institutionalized along with these changes? Let's discuss what this means for the long-term. Hashtag: #ILTACON #ILTA059	#059

1:30 PM	2:30 PM	Emperors Ballroom I	Fact or Fiction? Will Legal Be Able To Leverage the Microsoft Cloud?	Three to five years ago, if someone said that law firms and corporate legal departments would be implementing cloud solutions, the typical response would have been "fiction!" But the fact is clear: There is a trend in moving to a cloud environment, regardless of an organization's size. One popular foray into the cloud is with the implementation of Microsoft Office 365. Separating fact from fiction, hear how two law firms and Microsoft's Corporate Legal Department have capitalized on the O365 offerings to streamline their business processes and reduce their technology footprint. Join us as we identify technology checklists and points for consideration to help you safely navigate your law firm/corporate legal department's adoption of cloud technologies. Hashtag: #ILTACON #ILTA068	#068
1:30 PM	2:30 PM	Emperors Ballroom II	Security Serenity: Performing and Responding to Security Audits	Are you a corporate law department planning to audit a law firm? Are you a law firm just starting to receive client audits? Law firms are new to the concept of being managed as a vendor, but they need to get used to being viewed as a vital link in the chain of protecting sensitive information. Let's come together to gain a better understanding of the challenges faced by law firms and corporate law departments during security audits. You'll leave with a baseline of options available for external auditing processes and learn the processes and techniques experienced individuals have utilized to achieve security serenity.Hashtag: #ILTACON #ILTA069	#069
1:30 PM	2:30 PM	Florentine Ballroom I & II	Risks and Benefits of Moving to Exchange 2013	As Exchange 2013 reaches the third anniversary of its release, many law firms are considering or are in the early planning stages for an upgrade to their enterprise messaging platform. What are the key differences and benefits of Exchange 2013 relative to previous versions? Learn more as peer law firms discuss primary drivers for migration, keys to success and common pitfalls from their deployments. Attendees will also get a preview into what is new, different and exciting about Exchange 2016, anticipated for release later this year!Hashtag: #ILTACON #ILTA066	#066

1:30 PM	2:30 PM	Florentine Ballroom III & IV	Remote Access: What's New with This Old Problem?	Work style, consumer-oriented products, client demands, and legal technology solutions continue to change. To manage their lives and profitability, attorneys want the ability to work anywhere, anytime, and from any device. IT is left trying to adapt standardized systems to meet the needs and expectations of a variety of different people. We'll present the blend of technologies capable of meeting these demands, such as mobile apps, file sharing apps, Citrix XenApp and XenDesktop, VPN, VMware View and Microsoft DirectAccess, among others, to provide an intuitive, feature rich environment that is predictable, reliable and secure. Join us as we discuss the technology combinations we have used successfully.Hashtag: #ILTACON #ILTA067	#067
1:30 PM	2:30 PM	Milano Ballroom I & II	20 E-Discovery Warnings in 60 Minutes	We've all been there: Things don't go as expected, and you end up getting burned. Join your peers in this interactive session where audience members will provide examples of things that went awry and, more importantly, how the issue was resolved. Attendees will walk away with some great tips to avoid future fire drills!Hashtag: #ILTACON #ILTA072	#072
1:30 PM	2:30 PM	Milano Ballroom III & IV	Striking the Right Balance: Collaboration vs. Governance	Does the recent trend towards a pessimistic security model in your document management system require a shift in your knowledge management (KM) efforts? Striking a balance between collaborative KM and governance requirements is an ongoing process, with the "right" answer depending on the client, the firm's culture and any number of additional considerations. Our panel of KM and governance experts will talk about how their firms are managing this balancing act in an interactive session that will highlight key considerations, new ways of thinking and best practices. Hashtag: #ILTACON #ILTA074	#074

1:30 PM	2:30 PM	Milano Ballroom VII & VIII	Shared Practice Metrics for Law Firms and Legal Departments, Now and In 2020	Law departments are starting to run like businesses, and with that comes an increased emphasis on measuring performance against business goals. Collaboration in the development of shared metrics is essential to drive effective relationships and best-in-class legal operations. How can law firms and legal departments work together to promote mutually beneficial technology and metrics? What data points do law departments and firms care about now what will they care about in 2020?? Hashtag: #ILTACON #ILTA065	#065
1:30 PM	2:30 PM	Milano Ballroom V & VI	Engineering Successful Workplace Collaboration Between Extroverts and Introverts	Diverse personalities are good for society and the workplace. In today's organizations, we find challenges in identifying personality types and creating successful collaboration opportunities for them. Who are our introverts, who are our extroverts, and how do we get the most from them? Let's discuss how to understand and collaborate with the diverse personalities that make up our workforce. Before attending, please take a moment to take the following personality test: href="http://www.discordia-inc.co.uk/misc/mbtitest.html">http://www.discordia-inc.co.uk/misc/mbtitest.html</A>.Hashtag: #ILTACON #ILTA075	#075
1:30 PM	2:30 PM	Neopolitan Ballroom III & IV	A Candid Conversation with Thomson Reuters Technology Leaders	In his distinctly frank, inquisitive style, Jeffrey Brandt will lead a thought-provoking and insightful conversation with four of Thomson Reuters' most influential technology leaders. This discussion will cover a wide range of topics related to current and future trends in legal technology, including those posed by session participants.Note: This session will not be audio-recorded.Hashtag: #ILTACON #ILTA077	#077

| 1:30 PM | 2:30 PM | Octavius 1 | DataGravity: Enhance Discovery and Reduce Risks with a New Data Management Architecture | With the unabated growth of unstructured data files across the organization, both legal departments and law firms continue to grapple with the challenge of making sense of all the data. Whether it's finding and protecting relevant documents from modification or destruction in support of litigation, assessing the risk of intellectual property leakage, or proving compliance to data security and privacy regulations, legal teams are in a constant struggle to determine what data they have, where it is located, who has accessed it and when, and why the content is important to their case/project. Join us for an overview, demonstration and case study of how law firms are using a novel data-aware storage solution to answer these questions by transparently embedding intelligence into their on-premise IT infrastructure without incurring additional cost or overhead.Hashtag: #ILTACON #SS005Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors | #SS005 |
| 1:30 PM | 2:30 PM | Octavius 2 | NetDocuments EM Empowers with Predictive Email Management | Effectively managing content continues to plague sound information governance strategies, and one of the most difficult areas to ensure knowledge transfer and compliance is email. How a firm stores, files, tags and collaborates on email will dramatically affect the overall governance strategy for the better, or it could be a key reason a strategy gets derailed. Leveraging NetDocuments' cloud infrastructure and DMS, we have developed a compelling email management solution, NetDocuments EM. This can be used separately from NetDocuments DM (document management) or together to create a powerful solution for security, compliance, information governance and increased productivity. See how NetDocuments EM can further your firm's information governance strategy and empower your people with easy, mobile and predictive email management. 9:00 AM	10:00 AM	Octavius 1	Kraft Kennedy: Could Ignoring IRM Technology Be Malpractice?	In a technology-based world, legal collaboration has never been easier. Content can be accessible from anywhere, on any device and easily shared between lawyers and their clients. However, an increasingly collaborative environment often means major headaches for IT and security teams tasked with maintaining lifetime security and control over shared legal documents. Without adequate security in place, improper and ungoverned sharing can put the company's most confidential information at risk — and in the wrong person's hands. Come join Kraft Kennedy and Intralinks as they show how Information Rights Management (IRM) protection helps minimize malpractice concerns by staying with a document forever. Hashtag: #ILTACON #SS010Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors	#SS010
9:00 AM	10:00 AM	Octavius 2	eDOCS Best Practices for User Adoption	In a perfect world, law firms and legal departments have 100% of their matter-centric content saved, secured, and governed by their document management system (DMS). While 100% is the ideal, it is not the reality. Two thirds of legal organizations report less than half of their total content is captured in their DM. Why are documents not saved? User adoption of the DM is the central factor. The most common obstacles citied for user adoption are: reluctance of users/attorneys to use the system (44%), difficulty searching for and retrieving documents (30%), and poor integration with how users work (24%). Join this session and discover how eDOCS increases user adoption with a modern user experience that allows users to find and work in ways that are comfortable and intuitive. We will highlight simple-to-perform but high-yield configuration changes to increase your eDOCS user adoption, increase worker productivity, and reduce unnecessary risk. Hashtag: #ILTACON #SS011Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors	#SS011

11:00 AM	12:30 PM	Florentine Ballroom I & II	Data-Driven: Leveraging Data for More Effective Risk Management and Information Governance	Organizations outside of legal handle risk management with dedicated people, formal structures and better intelligence about where to deploy resources. This is a better way to manage risk, using empirical data to perform calculated, rational assessments. But where do you start? Learn how to approach risk comprehensively and intelligently instead of reactively, and hear how law firms and legal departments can use data to reduce risk and protect the business.Hashtag: #ILTACON #ILTA095	#095
11:00 AM	12:30 PM	Milano Ballroom I & II	Proving and Improving the Value of LPM	When delivering legal services, law firms need to find the right balance of accomplishing more while reducing costs. There is also a need to develop the infrastructure that enables you to measure client satisfaction and matter profitability. That is where legal project management (LPM) comes in. We'll help you make the business case, test and pilot measurement techniques, overcome resistance and help your firm embrace the impact of perceived value.Hashtag: #ILTACON #ILTA097	#097
11:00 AM	12:30 PM	Milano Ballroom III & IV	Latest SharePoint Updates and Features	SharePoint continues to evolve with increased innovation within Office 365 and new features for on-premise SharePoint. Come hear about the evolution of SharePoint in the cloud and on-premise and where things are going with SharePoint 2016. If you are responsible for deploying, managing or planning SharePoint implementations, you're sure to gain some takeaways!Hashtag: #ILTACON #ILTA098	#098
11:00 AM	12:30 PM	Milano Ballroom VII & VIII	Building a Process Map for Culling Discovery Data	The most costly stage of the discovery process is document review. To contain costs, litigation support teams must use analytics and leverage technology to reduce the amount of data that goes into review. During this hands-on workshop, attendees will develop a process for culling data based on a specific scenario with an "as is" process map. Each table will work as a team to determine the best technology, processes and people to improve efficiency in a defensible manner. Come learn how to think through and develop a process map related to e-discovery analytics!Hashtag: #ILTACON #ILTA101	#101

11:00 AM	12:30 PM	Milano Ballroom V & VI	Fail Forward: Failure As a Foundation for Success	Last year's "Failure Party" session was such a success that we decided to do it again! Our panel of experienced IT and KM professionals will share lessons learned from projects that didn't go exactly as planned. We revisit this topic in 2015 with a new panel of presenters, moderated again by Scott Rechtschaffen. Join us to learn how to view your failures as foundations for success! And if you're brave enough, bring your own lessons learned to share with your peers.Note: This session will not be audio-recorded.Hashtag: #ILTACON #ILTA099	#099
11:00 AM	12:30 PM	Neopolitan Ballroom I & II	Large Firm Discussion Forum	Join this thought-provoking discussion on our mutual challenges and successes. Everyone will be encouraged to contribute and network with your peers. We'll focus on issues that profoundly affect larger legal organizations, including these topics to choose from: * Security - LS-ISAO * Client Security Audits * Bimodal IT - Balancing Maintenance &amp Innovation * IT Financials: Tracking IT Spend in a Client Billing Accounting System * Firm Culture - Differences and Impacts * Impact of Newer Trends in Technology * IT Working with the General Counsel * Making Technology Strategic in Your Firm?Hashtag: #ILTACON #ILTA106	#106
11:00 AM	12:30 PM	Neopolitan Ballroom III & IV	A Guide To Buying New Storage	New storage system purchases can be overwhelming, with a crowded market of options and eye-catching ROI claims from vendors. Our panel of experts will share the pitfalls and successes of their experiences and guide you through important points that will assist you in making the right storage purchase for your firm. Start Time	End Date	Room	Session	Description	Event Code

1:30 PM	2:30 PM	Florentine Ballroom I & II	Observe, Predict, Experiment, Decide: BI and the Scientific Method	Do some of your business intelligence (BI) efforts fall into the "ready, aim, fire" category? It can be tempting to spit out fancy reports and dashboards without understanding the underlying educated guess or theory that drove the request. BI professionals need a repeatable framework that is based on documenting and testing hypotheses so the right work gets done for the right reasons. Attendees will learn how to quickly apply the scientific method to all of their BI efforts. Hashtag: #ILTACON #ILTA109	#109
1:30 PM	2:30 PM	Florentine Ballroom III & IV	Tools To Manage Your Desktop Environment	The desktop is rapidly evolving as firms continue to evaluate technologies such as VDI to deliver endpoints more efficiently across more devices. The challenge for IT is to leverage the right tools to provide a single flexible, consistent, secure, and productive user experience. This session will take a look at the Microsoft Desktop Optimization Pack (MDOP), a suite of tools with a focus on virtualization and extended management of windows features. Hashtag: #ILTACON #ILTA110	#110
1:30 PM	2:30 PM	Milano Ballroom I & II	A Rich Security Program Built on a Dime	Large and small firms are now competing for work from the same clients, and clients have security requirements that must be met whether you have 1,000 or 40 attorneys. Hear how smaller firms are working with vendors to create rich security programs on limited budgets and without the benefit of dedicated resources or security staff. Sample materials will be distributed, and nachos will be served. Hashtag: #ILTACON #ILTA111	#111
1:30 PM	2:30 PM	Milano Ballroom III & IV	Successful VDI Projects: Yes, It Can Happen	Seyfarth Shaw and Schnader Harrison Segal &amp Lewis are among the many firms successfully using thin-client (VDI) sessions for uses beyond remote access. Both firms will discuss their strategies, deployments, architectures and obstacles faced to achieve success.Hashtag: #ILTACON #ILTA112	#112

1:30 PM	2:30 PM	Milano Ballroom VII & VIII	A Project Management Principles/Process Toolkit	Agile, Waterfall, Six Sigma, and Lean: These are some of the more popular principles and processes people leverage to ensure firm projects and initiatives are completed effectively. Come explore these methods and learn more about their strengths and weaknesses. By the end, your toolkit will be full, helping you identify a discipline that could be right for you, your initiative and your organization.Hashtag: #ILTACON #ILTA115	#115
1:30 PM	2:30 PM	Milano Ballroom V & VI	Who's on First? Prioritizing Competing Projects	Balancing competing priorities while maintaining the flexibility to shift focus and resources quickly is necessary for any law firm or law department technology group. Our law firm experts will discuss how they manage this tricky balancing act, from how to build credibility and balancing project management best practices with business requirements to maintaining relationships and handling inevitable curveballs.Hashtag: #ILTACON #ILTA113	#113
1:30 PM	2:30 PM	Neopolitan Ballroom I & II	Data Costs Money and Subpoenas Aren't Free	Have you considered third-party subpoenas as an area for new cost recovery strategies? Is your law department continually pressured to cut costs and develop recovery initiatives while trying to deal with the work, time and expense, associated with responding to third-party subpoenas. This panel of law department professionals will provide real-life examples of their cost recovery program implementations, and they will share details about how they charge the requesting party for third-party subpoenas and issues to look out for.Hashtag: #ILTACON #ILTA120	#120
1:30 PM	2:30 PM	Neopolitan Ballroom III & IV	Disruption Is Now: It's Not Just for Big Law	Is "disruption" the latest fad in legal buzz words? We think not! But distinguishing between vague wish lists and concrete new tools and protocols can be challenging. How do you assess disruptive ideas, issues and organizations? How do you decide when these disrupters are likely to impact your organization? When should you react, engage or be proactive? Help comes in the form of TED-style talks from a number of professionals on the front lines.Hashtag: #ILTACON #ILTA119	#119

| 1:30 PM | 2:30 PM | Octavius 1 | LegalMind Personal Learning Portal Powered by Traveling Coaches | Different people want to learn in different ways, at different times and in different places. More than features and functions, they want to learn how to leverage technology in their everyday work. Beyond simple skills, they want to develop competencies which serve clients and advance careers. Corporate learning and development professionals are doing this so why can't law firms? Come see a new way for legal professionals to experience learning. LegalMind is built upon the latest learning theories and technologies to surface relevant information based on individual roles, goals, and learning styles. From a single Google-like search, access video tutorials, scenario-based self-study, tip sheets, knowledge checks and virtual classes on subjects ranging from technology to soft skills to professional development. | 9:00 AM | 10:00 AM | Octavius 2 | The Future of E-Discovery: HP eDiscovery 9.0 | Electronic discovery, as with information in general, is growing at an exponential rate. Even "small" cases now are considered large, and large cases are beyond what conventional discovery tools were designed to handle. HP eDiscovery 9.0, the next generation of HP's top-tier discovery management platform, efficiently breaks down the information — at any scale — and allows for a simpler, more efficient process of document review and production. See how the new streamlined interface increases usability and efficiency throughout the e-discovery process, whether it's basic tagging, search, document organization and filtering, or production processing. 11:00 AM	12:00 PM	Florentine Ballroom III & IV	Integrating Macs into the Law Firm Environment	Is the desktop the next BYOD? Macs are widely used at home and have slowly infiltrated what were once completely PC-oriented enterprises. Rather than shut Macs out of the enterprise network or relegate them to remote access, how can we allow users to choose their own platform and fully integrate the Mac and the PC into our existing networks and infrastructure? What are the concerns? What are the risks? What are the benefits? Come join the discussion and learn about the possibilities!Hashtag: #ILTACON #ILTA148	#148
11:00 AM	12:00 PM	Milano Ballroom I & II	Are You Ready for Windows 10?	Experts from Kraft &amp Kennedy will demonstrate the new features of Windows 10, focusing on the user interface and productivity improvements for the legal community. Gain insight into this technology release: features, benefits and challenges to law firm users and how it will impact the legal user community.Hashtag: #ILTACON #ILTA142	#142

11:00 AM	12:00 PM	Milano Ballroom III & IV	Handling Lateral Lawyers and Matter Transfers in a World of Mergers and Movement	Lawyers are moving from firm to firm to capitalize on legal practice innovations, regional relationships and professional advancement. Here we'll present a fresh view on some of the latest issues facing law firms when lawyers cut ties, including who "owns" non-traditional content (such as Web posts or calendar items), whether the firm should consider retaining copies of any materials, how to handle a departure that is less than amicable, what technologies can make the division of content more precise and timely, and more!Hashtag: #ILTACON #ILTA143	#143
11:00 AM	12:00 PM	Milano Ballroom VII & VIII	A Guide To Evolving Your Virtual Infrastructure for the Data-Driven Law Firm	The demand for resources has increased in today's virtual infrastructures, and yet we're being asked to do more with less and be more efficient. Join our panel of IT professionals as they cover budgeting, evolving and maintaining your virtual infrastructure for today's data-driven applications. Hear real examples of virtual infrastructures in production today and factors that led to their designs. Hashtag: #ILTACON #ILTA145	#145
11:00 AM	12:00 PM	Milano Ballroom V & VI	Best Practices for Secure External Collaboration	All firms want to keep their client files confidential and secure. Financial, health care and other clients expect secure file transfers (even if they send files to you unsecured). Another Outlook plugin is not the answer, and there are many options for secure collaboration. Join us as we highlight various architectures, solutions, strategies and other hot topics in this very active space. Leave with a checklist on how to keep your client data and file transfers secure.Hashtag: #ILTACON #ILTA144	#144
11:00 AM	12:00 PM	Neopolitan Ballroom I & II	Mobilizing Your DMS	Are you looking to conquer the challenge of mobilizing your document management system (DMS)? Stop by to learn how some firms have worked through security concerns, multiple device/platform support, document editing and user adoption. We'll discuss our experiences with offerings from DMS vendors as well as third-party partners. Is native mobility appropriate for your firm, or should you standardize on traditional remote access for your mobile workforce? Find out more about mobilizing your DMS!Hashtag: #ILTACON #ILTA146	#146

11:00 AM	12:00 PM	Octavius 1	Thomson Reuters: DIY or Outsource? A Decision Process Review	Have you ever gotten up early on a Saturday morning with the glimmer of confidence that you could tackle a lingering home repair, only to call a repair man on Monday morning because it became increasingly more complex as you delved deeper into the project? We all have! An organization's decision process on whether to outsource document review and other legal services is much like that of the enthusiastic homeowner trying to figure out for which do-it-yourself (DIY) projects they have the requisite skills, knowledge and time to do themselves. Join our panel of experts as they share the decision processes they follow when their organizations are faced with the question of whether to outsource or take the DIY approach and the results they have experienced from both decisions.Hashtag: #ILTACON #SS020Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors	#SS020
11:00 AM	12:00 PM	Octavius 2	LexisNexis: Supercharge LAW PreDiscovery with Early Data Analyzer	LAW PreDiscovery remains the industry-leading tool for powerful, flexible document imaging and production. With growing case sizes and pressure to learn more about collected data earlier in the process, there is a need for new tools in the toolbox. Early Data Analyzer can provide fast, scalable e-discovery processing, fully Web-based early case assessment capabilities and powerful search and filtering without extracting any source documents. And, unlike other processing tools, Early Data Analyzer can extract and send just the data you want directly to a LAW PreDiscovery case. See how you can supercharge LAW PreDiscovery. Hashtag: #ILTACON #SS021Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors	#SS021
11:00 AM	12:00 PM	Roman Ballroom I	Leveraging Technology To Deliver Better Assessments of Legal Risk	Fundamentally, lawyers are risk managers, and we need to conduct and deliver better assessments of legal risk. Join an expert panel as they discuss how to accomplish this by leveraging existing and new technologies, and by borrowing principles used in business for assessing risk, such as quantifying risk and cost using modeling, analytics and projections. Hashtag: #ILTACON #ILTA139	#139

11:00 AM	12:00 PM	Roman Ballroom II	The Accidental Procurement Officer: Managing the Deal	From setting the strategy through execution of the deal, attendees will gain the tools needed to negotiate effective contracts. You'll hear about contract pitfalls, high-level strategies, metrics and deliverables. This is designed for the "Accidental Procurement Officer," but anyone involved in negotiations will benefit.Hashtag: #ILTACON #ILTA140	#140
11:00 AM	12:00 PM	Roman Ballroom III	Develop Talent and Prove the Value of Your Internal Litigation Support	With more and more vendors touting all-inclusive services, litigation support managers and directors have to show the value their departments add to the discovery process. Come hear experts talk about their experiences developing talent and managing "up" to meet the vendor challenge.Hashtag: #ILTACON #ILTA141	#141
11:00 AM	12:00 PM	Roman Ballroom IV	What Are UTBMS Codes and Why Would They Matter to Me?	What are UTBMS codes and why are they used by legal departments around the world? The UTBMS codes remained the same for over a decade, and now LEDES is working hard to enhance them for current business use in legal departments and law firms all over the world. Learn what has changed and why, as well as what is on the horizon. Please attend if you have ideas, suggestions or requirements that don't currently seem to fit the existing UTBMS code sets. This is your chance to be heard — don't miss it!Hashtag: #ILTACON #ILTA149	#149

Start Time	End Date	Room	Session	Description	Event Code
1:30 PM	2:15 PM	Florentine Ballroom III & IV	Working Out Loud: Dynamics of Enterprise Collaboration	Are your users flooded by email? Do they loathe having to find the latest version of a document among a dozen revised drafts being circulated? Have you wondered how other businesses "work out loud" using tools like Slack? If you answered "Yes" to any of these questions, this session is for you. Yes, there is a better way to collaborate in the enterprise. We will discuss the dynamics of enterprise collaboration and how social collaboration tools can be used effectively in legal organizations. Hear examples, key takeaways and the pros and cons of working out loud. Skeptics welcome!Hashtag: #ILTACON #ILTA159	#159

1:30 PM	2:15 PM	Milano Ballroom I & II	Small Firm Forum: Security - The Walls That Protect (Part I)	If you still aren't afraid, you aren't paying attention. Come listen to a story about a hacking event with no data loss at an ILTA Firm. There will be insightful discussions addressing the unique challenges of security in small firms and legal departments. The panelists and audience will share things we need to know and what we are doing to protect our firms.Hashtag: #ILTACON #ILTA158	#158
1:30 PM	2:15 PM	Milano Ballroom III & IV	Building Your Firm's Innovation Engine: Part I	In this hands-on experiential workshop, participants will learn how to be effective innovation leaders in their firms. Begin to think more expansively about innovation and gain insight on how to implement smart innovation processes in your organization. Hashtag: #ILTACON #ILTA155	#155
1:30 PM	2:15 PM	Milano Ballroom VII & VIII	Tech Gadgets: Those You Need, Those You Want and Those That Make You Wonder	Join this fun, interesting and sometimes bizarre review of the world of technology gadgets. We'll review a spectrum of gizmos that will range from the totally awesome to the absolutely crazy. We'll highlight the best stuff that can make your life easier and the weird stuff that you might not believe is real (and maybe we'll make some of it up, just for fun). Hashtag: #ILTACON #ILTA157	#157
1:30 PM	2:15 PM	Milano Ballroom V & VI	Collaborative and Creative Workplaces	Some law firms are moving away from traditional closed office settings and exploring new open-plan designs, but does this deliver better workplace flexibility and team collaboration? Do these new workplace environments translate to agile working within the office with more people working offsite (home or client offices)? How will this shift support service loads? Listen in as we deliberate about these interesting new workspaces.Hashtag: #ILTACON #ILTA156	#156

1:30 PM	2:15 PM	Neopolitan Ballroom I & II	Reboot Your Billing Process: Part I	Billing is the lifeblood of every firm and is linked to everything from business intelligence to legal project management to compensation. However, billing is a labor-intensive effort for both attorneys and staff. How do we reimagine and re-engineer this linchpin administrative function? Part one in this two-part, hands-on process improvement series will focus on defining the requirements for a successful billing process and identifying current opportunities for improvement, including turnaround, accuracy and the growing demand for billing-related information.Hashtag: #ILTACON #ILTA154	#154
1:30 PM	2:15 PM	Octavius 1	Payne Group: Redact Assistant: Secure Redaction for Native Excel and Word	This past year, PayneGroup worked on a government security agency task force to help define standards for proper redaction and metadata removal. Redaction, removing information from files, is essential when confidential data must be removed from a file before it is shared or electronically published. If a file is not redacted properly, sensitive information can be viewed by unauthorized individuals. While competitive products existed prior to this release from PayneGroup, the primary differentiator is that redacted files sanitized by the PayneGroup Redact Assistant are still functional in their native format (e.g., Excel formulas still work, the file does not have to be converted to a graphic or PDF, etc.). The software also comes with useful aids that help mask common terms to be redacted, such as Social Security and credit card numbers. This isn't just software for a law firm government agencies, pharmaceutical and health care organizations, corporations and legal will find this software not only useful, but necessary. Hashtag: #ILTACON #SS022Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors	#SSO22

1:30 PM	2:15 PM	Octavius 2	Aderant Profitability Tools	Law firms are complex companies with hundreds of intricate variables and thousands of metrics and measurements. The ability for decision makers to easily determine what is important and controllable is incredibly valuable and leads to a more stable and prosperous firm. Aderant has focused our development efforts over the last few years on building next-generation tools to help firms plan, monitor and highlight the areas in your business that can have the greatest impact. Let's walk through a few of our latest solutions and market insights. Hashtag: #ILTACON #SS023Note: This session will not be audio-recorded.Solution Spotlight Sessions Are Closed to Vendors	#SS023
1:30 PM	2:15 PM	Roman Ballroom I	Guerrilla KM: Successful Knowledge Management Without a CKO	In many organizations, knowledge management is not an official department or function, or has only recently evolved into one. Panelists will discuss how they launched successful KM programs, built a grassroots KM movement, or created cross-functional awareness and support for KM initiatives. Hashtag: #ILTACON #ILTA151	#151
1:30 PM	2:15 PM	Roman Ballroom II	Build Better Relationships with Your Business-Technology Liaisons	It can be frustrating and time-consuming for IT professionals to work with internal clients who request solutions to business problems but who have limited knowledge about technology and, often, unrealistic demands. To help facilitate technology projects, some firms have created new positions in marketing, litigation support and finance. Our lively panel of speakers, successful technology liaisons from law firms and a corporate legal department, will help you end the frustration and save time, providing you with guidelines on how to build better relationships with your (formal or informal) technology liaisons.Hashtag: #ILTACON #ILTA152	#152
1:30 PM	2:15 PM	Roman Ballroom III	PM vs. LPM: Is There Really a Difference?	We hear so much about project management and legal project management, but is there really a difference between the two? Come hear a spirited debate where attendees choose the victor (and learn along the way).Hashtag: #ILTACON #ILTA153	#153

Start Time	End Date	Room	Session	Description	Event Code
1:30 PM	2:15 PM	Roman Ballroom IV	10 Years of the ILTA/InsideLegal Technology Purchasing Survey Findings	What is the average percentage of total firm revenue ILTA members spend on technology? What's the average tech spend per attorney? How does your firm's tech budget compare to the firm next door? What are your peers' key influencers for tech purchases? Get the answers to these questions and more comparative data/metrics as part of the ILTA/InsideLegal Technology Purchasing Survey 10-year anniversary 'in review' session. Join survey co-producers InsideLegal and ILTA Member Skip Lohmeyer (CIO, Jackson Kelly) to weigh in on the findings. This panel will take a look at the past 10 years of data, provide the audience with key survey metrics and a real world 'lessons learned' discussion when it comes to effectively leveraging this survey data. Hashtag: #ILTACON #ILTA160	#160

2:30 PM	3:15 PM	Milano Ballroom VII & VIII	Better Business Results Through Better Business Intake: Part I	Streamlining client intake and improving general business process efficiency is critical to the practice of law, and firms are facing new pressures to transform how they operate. Technology can play a significant role in enabling quicker, more adaptable business acceptance and workflow execution. During part one of this two-part series, a panel will explore industry business, risk and financial drivers, and technology considerations.Hashtag: #ILTACON #ILTA169	#169
2:30 PM	3:15 PM	Milano Ballroom V & VI	Past Performance and Future Success: What's Next for E-Discovery?	From the days of paper review to the advent of electronic scanning and to e-discovery as we now know it today, listen as industry veterans explore the evolution of our industry and share their experiences of adjusting to the times. They will explore the role of technology, adoption and expertise of the courts and government agencies, the role of the attorney, and much more!Hashtag: #ILTACON #ILTA168	#168
2:30 PM	3:15 PM	Neopolitan Ballroom I & II	Reboot Your Billing Process: Part II	Billing is the lifeblood of every firm and is linked to everything from business intelligence to legal progect management to compensation. However, billing is a labor-intensive effort for both attorneys and staff. How do we reimagine and re-engineer this linchpin administrative function? Part two in this two-part, hands-on process improvement series will focus on developing recommendations for billing best practices, including exploring changes to process and tools and training to better meet the needs of internal and external customers and clients.Hashtag: #ILTACON #ILTA166	#166
2:30 PM	3:15 PM	Roman Ballroom I	Build Your Own Google: Creating an Effective Internal Search Experience	Join our panel of industry leaders and law firm search experts for an engaging discussion of search for the law firm intranet. We will discuss the importance of an effective search experience, what an ideal search looks like from the perspectives of different stakeholders and best practices you can use regardless of which technology solution you've implemented.Hashtag: #ILTACON #ILTA163	#163

2:30 PM	3:15 PM	Roman Ballroom II	Visio Is Dead: Using the Power of Drawing To Map Processes, Build Alignment and Drive Compliance and Learning	Is a multipage Visio flowchart all your users need to learn and remember complex process flows? Think again. Join in as attendees learn how simple drawings and uncomplicated visuals can help people understand things twice as well in half the time. And don't worry, drawing is optional.Hashtag: #ILTACON #ILTA164	#164
2:30 PM	3:15 PM	Roman Ballroom III	Innovation Through Automation: Implementing Effective Document Assembly	Document assembly applications and the use of templates have been around for quite a while, but adoption has been either slow or non-existent in many legal organizations. Successful firms are finding that there can be innovation through automation, which will be discussed by a panel of representatives from three different law firms. They'll share business drivers and benefits associated with document assembly applications and tips for building a framework for selecting, deploying and implementing a solution. Hashtag: #ILTACON #ILTA165	#165

3:30 PM	4:30 PM	Florentine Ballroom III & IV	Transformers: Lawyers As Agents of Change? In Disguise!	Engaging lawyers in organizational initiatives can be challenging, especially when a lawyer's time is the scarcest of resources and they are perpetually clocking long hours to meet client needs. How do you create the opportunity for them to reflect, engage, innovate and — dare we say — become the central part of a dynamic change process? To answer this question, let's explore the outcomes of a unique, award-winning project undertaken by Higgs &amp Sons, a 140-year-old U.K. law firm, and Aston Business School that casts a spotlight on challenges and best practices of engaging with your lawyers and support staff to deliver both cultural and operational changes. Take away ideas on how to transform a law firm of any size into the law firm of tomorrow — one that is both driven by innovation and ready for change.Hashtag: #ILTACON #ILTA183	#183

3:30 PM	4:30 PM	Milano Ballroom I & II	Matter Center for Office 365: Boosting Productivity for Legal Professionals	Matter Center for Office 365 is a solution that takes advantage of Microsoft's productivity platform to make it easier for legal professionals to manage documents and collaborate with others in a trusted, matter-centric manner. Representatives from Microsoft will share recent progress made on Matter Center for Office 365, and panelists will talk about their first-hand experiences with the solution.Hashtag: #ILTACON #ILTA178	#178
3:30 PM	4:30 PM	Milano Ballroom III & IV	Disaster Avoidance for Core Applications (It's Better Than Disaster Recovery)	In today's fast-paced business environment, core applications need to be available continuously, creating a need for innovative and diverse disaster avoidance solutions. Join IT professionals that have implemented various technologies to ensure minimal downtime, avoiding typical "failover" logistics. Walk away with new ideas on how to ensure stable service of the technology platforms used by your organization.Hashtag: #ILTACON #ILTA179	#179
3:30 PM	4:30 PM	Milano Ballroom VII & VIII	Better Business Results Through Better Business Intake: Part II	Streamlining client intake and improving general business process efficiency is critical to the practice of law, and firms are facing new pressures to transform how they operate. Technology can play a significant role in enabling quicker, more adaptable business acceptance and workflow execution. During part two of this two-part series, attendees will see demonstrations of multiple vendor products, delivered by their clients who will offer additional commentary.Hashtag: #ILTACON #ILTA181	#181
