

Join us for the

2021 Business Automation Virtual Innovation Summit

2 November 2021

1:00 PM – 2:30 PM ET

Bill Lobig, VP of Product Management at IBM Automation, welcomes guests Alan Pelz-Sharp, founder of Deep Analysis and creator of the Innovation Index, and Merve Unuvar, Director of AI and Automation at IBM Research, for a journey into what innovation means for Automation.

When the 90-minute session concludes, you will have a better understanding of how IBM is committed to innovation and how that innovation can help you innovate at your organization.
