

# Call for Nominations: 2021 APS Best Publication Award

**Deadline: April 1, 2021**

The Applied Probability Society of INFORMS invites nominations for its *2021 Best Publication Award*. This award, which recognizes outstanding contributions to applied probability, consists of a plaque and \$1000. It will be presented at the INFORMS Annual Meeting, Anaheim, CA (October 24-27, 2021).

To be eligible, the contribution (a book, paper, or set of papers) must meet the following criteria.

- The contribution must be in the area of applied probability;
- It must have appeared (in the case of a set, at least one member of the set) in the open peer-reviewed literature with official publication date within the interval January 1, 2017 to December 31, 2020;
- It must be written in English, or have an accurate English translation available.

The contribution will be judged according to the extent to which it advances the state of the art, the theoretical or methodological originality, the depth and significance, the areas of application that it opens, and the clarity of the exposition. Past award winners can be found here:

<https://connect.informs.org/aps/apsawards/bestpub-past>.

Nominations may be made by anyone, including the nominee. A nomination package consists of

- A description of the contribution and its significance;
- A copy of the nominated publication(s).

The nominator should send the package to Rhonda Righter [righter@berkeley.edu](mailto:righter@berkeley.edu).

Nominations submitted before 11:59pm EST on April 1, 2021, will be given full consideration.
