2017/18 Doctoral Dissertation Award for Operations Research in Network Analytics and Telecommunications

• The award aims to recognize outstanding scholarly achievements of young people in the field. The Award will be judged based upon three aspects: recommendation by the nominee's dissertation advisor, presentation of the dissertation at the 2018 INFORMS Telecommunications Conference in Hamburg, Germany, and the written dissertation itself.

• Selection committee:
  • Eli Olinick, president
  • Fabio D’Andreagiovanni
  • Young Myoung Ko
Finalists

• Martim Joyce-Moniz, Université Libre de Bruxelles
  • Models and Methods for Traffic Engineering Problems with Single-Path Routing

• Lei Lei, Linköping University
  • From Orthogonal to Non-Orthogonal Multiple Access: Energy- and Spectrum-Efficient Resource Allocation

• Marco Premoli, Universita Degli Studi di Milano
  • Mobile Edge Computing Network Optimization
2018 Best Dissertation Award

- **Martim Joyce-Moniz**, Université Libre de Bruxelles
  
  - Models and Methods for Traffic Engineering Problems with Single-Path Routing
