Society Update

MSOM Society Membership 2008-2020

MSOM membership

Notes:
Total membership = 1716 in 2019. Low was 951 in 2008 and high was 1813 in 2018.
Student members = 34.7% in 2019. Low was 26.4% in 2008 and high was 38.7% in 2012.
2019 number is based on download of active membership on Aug 31, 2019.

MSOM Finances

Healthy financial position

- Cash balance of **\$201,986** on 8/31/2019.
- Cash balance of **\$200,164** at the end on 8/31/2020.

New Initiatives

M&SOM Society Diversity and Inclusion Committee

- Diversity and Inclusion Committee Approved in Summer 2020 Business Meeting.
- Amendment in by-laws requires by-law updates
 - As per Informs policy, this requires re-structuring the society by-laws according to an Informs template (model by-laws).
 - We are in the process of adjusting our society by-laws, with minimal changes while following the Informs template.
 - The new format will be shared with membership in February/March 2021.
 - To be voted in March/April 2021 (online).

Agenda

- **State of the Society:**
 - MSOM Officers
 - Society Update (Membership, Finances)
 - MSOM Conferences (2021 and 2022) and INFORMS 2021
 - New Initiatives: By-law Updates per INFORMS Request
- **Awards:**

2020 YOUNG SCHOLAR AWARD

TO RECOGNIZE EXCEPTIONAL YOUNG RESEARCHERS (40 OR YOUNGER) WHO HAVE MADE OUTSTANDING CONTRIBUTIONS TO SCHOLARSHIP IN OPERATIONS MANAGEMENT.

PRIZE ACCOMPANIED BY PLAQUE AND \$1000 HONORARIUM.

2020 Committee:

Rob Shumsky (chair)

Carri Chan

Gustavo Vulcano

Lingxiu Dong

2020 MSOM Young Scholar Prize Winner

Vivek Farias

- “Over a relatively short period of time, [he] has already made significant contributions across an array of topics important to operations management.”
- “While [his] research is characteristically application-driven in terms of problem choice, his work is quite remarkable in that it includes major theoretical contributions to some of the most difficult core problems in dynamic optimization under uncertainty and other fundamental problems in learning and optimization. At the same time, he develops pragmatic solution methods that are real-time and data-driven.”
- “He is one of the few researchers who are capable of doing theoretically deep work and who also have demonstrable practical impact.”

RiRiShun Logistics

Home Appliance Delivery Data for the 2021 MSOM Data Driven Research Challenge

RiRiShun: A logistics ecosystem

- Logistics subsidiary of Haier
- Focus on logistics service for household appliances
- Provide service for Ali, JD.com, and hundreds of manufacturers, and online & offline retailers
- 4-dimensional logistics network
 - 7 national CDCs
 - 26 RDCs
 - 100 LTCs
 - 2,000 hubs
 - 5,000,000 m² storage area
- Distribution: 100,000 trucks
- Service: 6,000 service stations, 200,000 installation servers
- Each province has one RDC or CDC
- A much denser network for the eastern and southern provinces

CDC: central distribution centers
RDC: regional distribution centers
LTC: local transfer centers

Data Description

□ Table 1. Orders

- Detailed information for 17,401,572 RRS orders from October 2018 to September 2019
- 149 clients and 4,223,372 end-consumers
- The highest is 14,888,490, takes 85.3% of all the orders

□ Table 2. SKU Details

- Detailed information for all SKUs with length, width, height, volume and weight

□ Table 3. Appointment Details

- Detailed appointment information for each order, including estimated delivery time appointment date

□ Table 4. Delivery Details

- Detailed delivery information of each order, containing all operation nodes in the entire logistics distribution process

□ Table 5. Consumer Details

- Detailed location of each end-consumer

□ Table 6. Client Details

- Classification of the 149 clients, into logistics operators (e.g., Cainiao), retailers, and manufacturers

□ Table 7. Distance Information

- Estimated travel distance between any two distribution centers in the network

Potential Research Questions

- Contract design
- Transshipment strategy with cloud storage and cloud distribution
- Cost and revenue allocation between involved centers for transshipments
- Incentives and delivery successful rate, to reduce reassignments
- Cross-dock warehousing optimization between different transportation modes (i.e., trunk transportation, urban logistics, and last-mile delivery)
- Distribution network design
- Inventory strategy: pooled or dedicated
- Cost or revenue allocation among involved centers for specific orders
- Load scheduling for trucks facing products from upstream centers and local warehouses

Process for DE Selection

Received input from several people from many different schools, countries/continents.

Dan Adelman, Gad Allon, Mor Armony, Atalay Atasu, Mohsen Bayati, Saif Benjafaar, Omar Besbes, John Birge, Ryan Buell, Gerard Cachon, Maxime Cohen, Morris Cohen, Charles Corbett, Francis de Vericourt, Wedad Elmaghraby, Ozlem Ergun, Vivek Farias, Jérémie Gallien, Steve Graves, Pavithra Harsha, Stelios Kavadias, Pinar Keskinocak, Song-Hee Kim, Hau Lee, Retsef Levi, Mahesh Nagarajan, Hamid Nazerzadeh, Serguei Netessine, Tava Olsen, Mike Pinedo, Ananth Raman, Kamalini Ramdas, Guillaume Roels, Paat Rusmevichientong, Max Shen, Melvyn Sim, David Simchi-Levi, Chris Tang, CP Teo, Beril Toktay, Brian Tomlin, Anita Tucker, Larry Wein, Assaf Zevi, Karen Zheng.

Thank you all so much!

Lots of people I did not consult yet!
Please reach out with any ideas or
feedback!

Starting from Clean Slate – New Departments

- Manufacturing and Supply Chain Department
- Services, Platforms and Revenue Management Department
- Environment, Health and Society Department
- Innovation Department
- Analytics in Operations Department
- Practice Platform
 - DEs will seek for practitioners to write an article (maybe co-authored with an academic) that will highlight exciting new areas in their industry
 - Goal to expose community to interesting problems but also bring practitioners closer to our community
- M&SOM Data Challenge (Gad Allon and Max Shen)
- Plus one more new initiative (Frontiers in Operations)

Criteria for DE selection

- Research Active, Versatility, Involved, Caring about Impact, Dependable/Fast, Broad view, Open Minded, Positive, Thoughtful, Organized, Bandwidth.
- Senior enough, be a full professor or close to it.
- Many people satisfy these criteria so in addition, it was important to:
 - Have an editorial board that is **broad** and **diverse**.
 - Strive for **quality** and at the same time achieve: **diversity** in terms of university representation, country representation, continent representation, gender representation, include DEs from engineering schools in addition to business schools.

Departments

Where to submit?

The goal is also to provide community with options in terms of which department they can submit.

But if a DE is overloaded, we may need to reshuffle.

Associate Editors

- Starting also with clean slate (per INFORMS guidelines).
- BUT this does not mean that several of the current AEs will not be invited back necessarily.
- We are currently determining our process and criteria for AE selection.
- Our goal is to be transparent!
- Diversity is important to all of us on the board!

More to come!

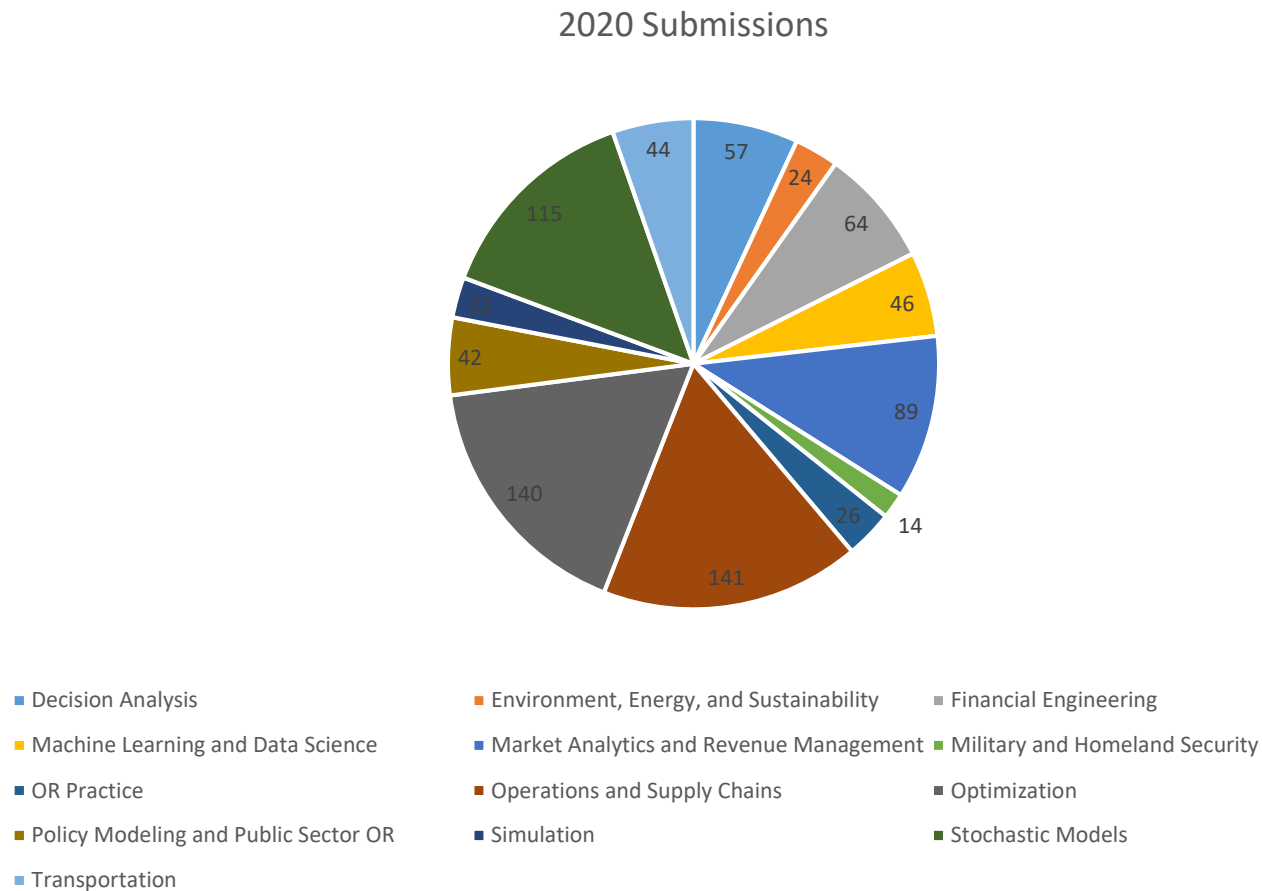

We are excited to take this journey with you all!

Your ideas and feedback are always welcome!

Operations Research Update

- Turn-around times: assessing AEs, fast-tracking, forward-to-journal for conferences
- Impact: soliciting well-executed surveys, special issues: behavioral queueing, electric power systems, reinforcement learning, online additions: videos, comments, papers
- Potential biases: assessing empirically for action

November 2020

Outline

- ❑ Major Initiatives
- ❑ Submission Volume
- ❑ Cycle Time
- ❑ Acceptance Rates
- ❑ Comments

Major Initiatives

❑ Data and Code Disclosure Policy

- Data Editor was appointed in March 2020
- The Data Editor checks the data after a paper is accepted, and randomly checks a subsample of the code to ensure that running the code on the data set produces the results reported in the paper

❑ Replication Project

- ✓ The editorial board initiated a replicability project with the objective to report replicability of laboratory experiments published by MS
- ✓ Faculty involved include faculty from 5 universities: **Andrew Davis, Blair Flicker, Kyle Hyndman, Elena Katok, Samantha Keppler, Stephen Leider, Xiaoyang Long and Jordan Tong.**
- ✓ Based on a community survey, the team selected 10 papers in Inventory Management, Supply Chain, Queueing, Forecasting, and Sourcing.

Major Initiatives (2)

❑ **Virtual Special Issue on Diversity, Equity and Inclusion (DEI)**

- ✓ Compiled a list of papers published in the journal between 2015-2020 related to DEI
- ✓ Our hope is that papers in the special issue will inform policy, impact education, and motivate new research

❑ **New Special Issue on Business and Climate Change**

- ✓ Covering climate change from several functional lenses
 - Accounting and Finance, Business Strategy, Entrepreneurship and Innovation, Operations, Organizations
 - Cross-disciplinary emphasizes
- ✓ Submission Deadline: February 28, 2021

Major Initiatives (3)

❑ **New Special Issue on Blockchain and Crypto Economics**

- ✓ The special issue brings together guest editors from Finance and Operations
- ✓ The special issue is done in collaboration with the Crypto and Blockchain Economics Research (CBER) Conference organized by Cornell University and the University of Toronto
- ✓ Submission Deadline: May 15, 2021

Major Initiatives (4)

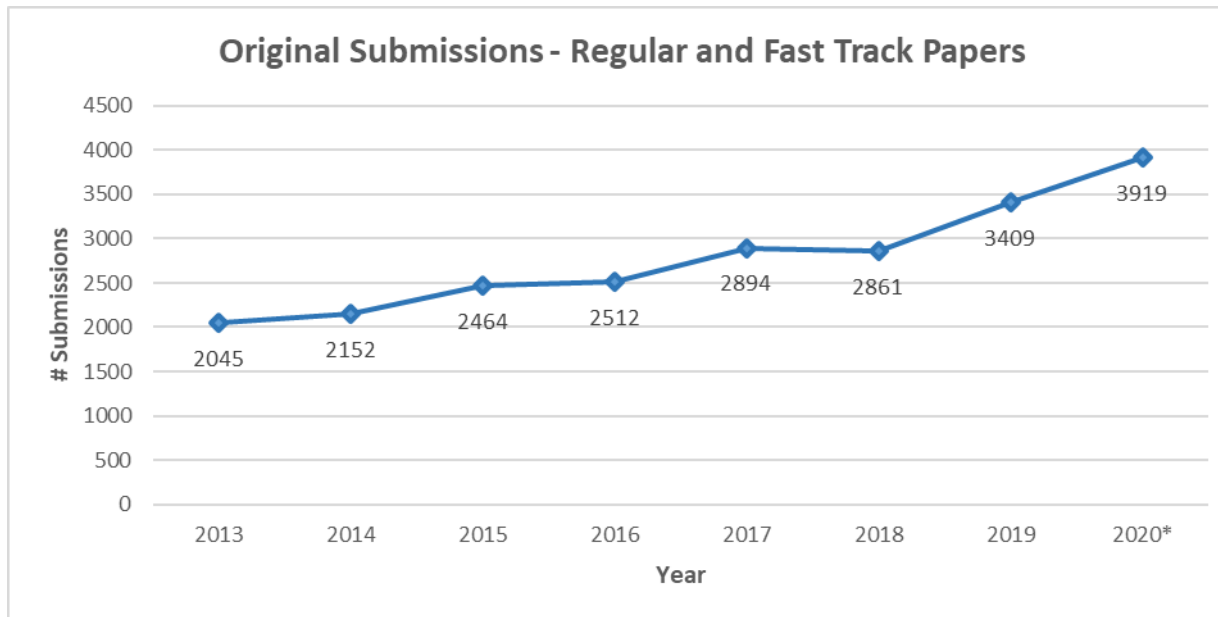

❑ **Management Science Task Force on DEI**

- ✓ Recommend actions that Management Science can take to expand its diversity, including diversity of authors, editors and published papers, while maintaining scholarly excellence
- ✓ Gather information from other journals on best practices and identify gaps for MS.

❑ **Task Force to Examine Management Science Review Process**

- ✓ Review committee includes people with experience publishing in INFORMS, Computer Science, Economics, Organizational, Medical or Finance journals
- ✓ Report submitted; Review by the Editorial Board.

Submission Volume: Observations

- ❑ 15% increase in submission volume relative to 2019
 - ✓ The significant increase in submission volume is driven by Accounting, Decision Analysis, Finance & Healthcare Management
- ❑ Submission volume to Operations Management is projected to be 400 in 2020
 - ✓ The introduction of the three new departments cannibalizes papers that in the past would have been submitted to Operations Management
 - ✓ Total number of submissions across the four departments represents about 17% (600+) of the total submission volume to Management Science
- ❑ Fast Track is projected to receive almost 500 papers in 2020, a 50% increase relative to last year.
