Road Engineering Foundations

Best-practice road construction and management

Designed for engineers, technical officers & works supervisors

Presented by industry experts from the **Centre for Pavement Engineering Education**, this four x half-day online course will address best-practice road design, construction and maintenance.

Learning Outcomes:

- the principles, players and practices supporting the national road industry
- a broad understanding of practical road design
- factors affecting pavement construction and optimal design methods
- sealed road investigation and evaluation
- the selection and design of pavement maintenance strategies and treatments for flexible pavements

CPEE has operated as a specialist road pavement training provider throughout Australia for over 25 years.

Session 1: Introduction to Road Management

10:00am-2:00pm 17 July 2024

Session 2: Geometric Road Design

10:00am-2:00pm 24 July 2024

Session 3: Pavement Design & Construction

10:00am-2:00pm 31 July 2024

Session 4: Maintenance & Rehabilitation

10:00am-2:00pm 7 August 2024

Road
Engineering

This course is one of eight in the **Public Works Foundations Program**.

Completion entitles participants to a digital badge for social media use.

IPWEA members: \$1,980 (inc GST)

Non-members: \$2,420 (inc GST)
