

RECYCLED ASSETS PROJECT

PROJECT PARTNER WORKSHOP INVITATION

We are excited to launch the Green Industries SA “Boosting recycled material use in infrastructure assets project” and want to hear from you...

THE PROJECT PLANS...

to develop a best practice guideline e-book and online training course, build collaborative industry links and extend knowledge for asset managers, engineers and consultants to increase the procurement and use of recycled materials. The project will include asphalt, concrete, steel, glass, tyres, plastics, PVC and organics and their potential use in over 200 assets... **but we need your help.**

TO ATTEND REGISTER BY 5 AUG 2022

? HOW?

- How do we integrate more recycled materials into infrastructure?
- What are the barriers that you face in achieving that?
- How can we streamline recycled materials / projects procurement?

WHEN?

Wednesday 10 August 2022

1pm – 4:30pm (includes afternoon tea)

WHERE?

LG House, 148 Frome St, Adelaide & Online
