Description

Appraisal
Amenities block caters to caravanner guests in the southern end of the Park. Is located in playground precinct near pool, jumping pillow, playground, leash free dog area and main reception. Amenities now fully compliant with Australian standards and local government regulations. Feedback from guests since refurbishment has been entirely positive.
Components in Poor or Very Poor Condition

All components within this property are rated above the poor threshold.
Glossary

**Component**
The specific asset at the lowest level of detail, i.e. solid door, aluminium window, etc.

**Component Group**
High level categorisation of a component, i.e. roof, floor coverings, etc.

**Component Type**
Mid-level categorisation of components that fit under Component Group, i.e. roof drainage, lights, extinguishers, etc.

**Component Criticality**
This is the measure of the relative importance of a building component by identifying which components are more critical to the building. Criticality factors include: Likelihood of failure, risk to service delivery, appearance, health and safety impacts.

**Condition Grade Index (CGI)**
Condition Grade Index is the combined weighting of the assessed components in relation to their stated condition. The index value gives a structural overview of the condition of replacement components and is utilised in production of various lifecycle programs. A structure that has a low CGI value will require less capital works in comparison to a structure with a higher CGI value.

**Critical Assets**
Assets for which the financial, business or service level consequences of failure are sufficiently severe to justify proactive inspection and rehabilitation. Critical assets have a lower threshold for action than non-critical.

**Capital Replacement Value**
The cost to replace the structure, which is a combination of Gross Replacement Cost and the Residual Structural Value. Cost is expressed in today's Dollar value.

**Depreciated Replacement Cost**
The cost to replace the component, accounting for depreciation.

**Hierarchical Data**
This symbol proceeding a section heading indicates information within the section represents the chosen property and any child properties that are linked within the property hierarchy.
