

IPWEA Fleet Management Certificate

Self Study. Distance Learning. Supported by Live Online Training. Assessment.

For more information visit www.ipwea.org/FMC

Unit Title	Overview
1 Utilisation	The key to procurement and management of the plant & vehicle fleet
2 Whole of life Costs	Knowing the whole of life cost and expected utilisation provides charge out rates that recover the full cost of owning & operating the item
3 Tendering	Preparing the specification and assessing tenders through a weighted analysis aimed at delivering a best value outcome
4 Maintenance	Best practice maintenance includes scheduling services, assessing the reason for failures and maintenance chain of responsibility.
5. Service level agreements	Provide the framework upon which works and services are delivered
6 Regulatory Requirements	Operating plant and fleet attracts inherent liabilities for an organisation directly related to various regulatory requirements

- Based on the IPWEA's best practice Plant & Vehicle Management Manual
- Fleet Management Certificate program will enhance the skills and ability of people working in the areas of local government and public works engineering
- Provides recognition of the skill level attained
- Provides for continuing professional development for people in plant & vehicle management.
- Self study / distance learning modules; Workbooks & Assessment

\$1050 plus GST for Systems Plus Subscribers
\$1260 plus GST for Non Subscriber Organisations

Visit www.ipwea.org/ipweafleet to find out more about Systems Plus subscriptions

Live Online Training Support now included

Live online training provides additional support for the self study modules & assessment of the Fleet Certificate and is now included in the enrolment fee.

- Comprises 7 x 60-90 minute 'live' online sessions over 5 weeks from the comfort of your office.
- Completion of the online training does not result in awarding of the Fleet Management Certificate. It is necessary to be enrolled in the Fleet Management Certificate and separately complete the Fleet Certificate assessment tasks and be deemed competent.
- Also available as standalone professional development to persons not enrolled in the certificate course (at a cost).
